TURN THE CUBE

TURN THE CUBE

The design revolution for microwaves and exclusively available in the **new** CUBE series by CASO Design: Our exclusive CUBE controller – for intuitive operation and demanding gourmets.

Perfect operation

Simply turn our distinctive and exclusive CUBE controller to control the time and other features and let go once your desired setting has been reached. It will then automatically engage back in its initial position.

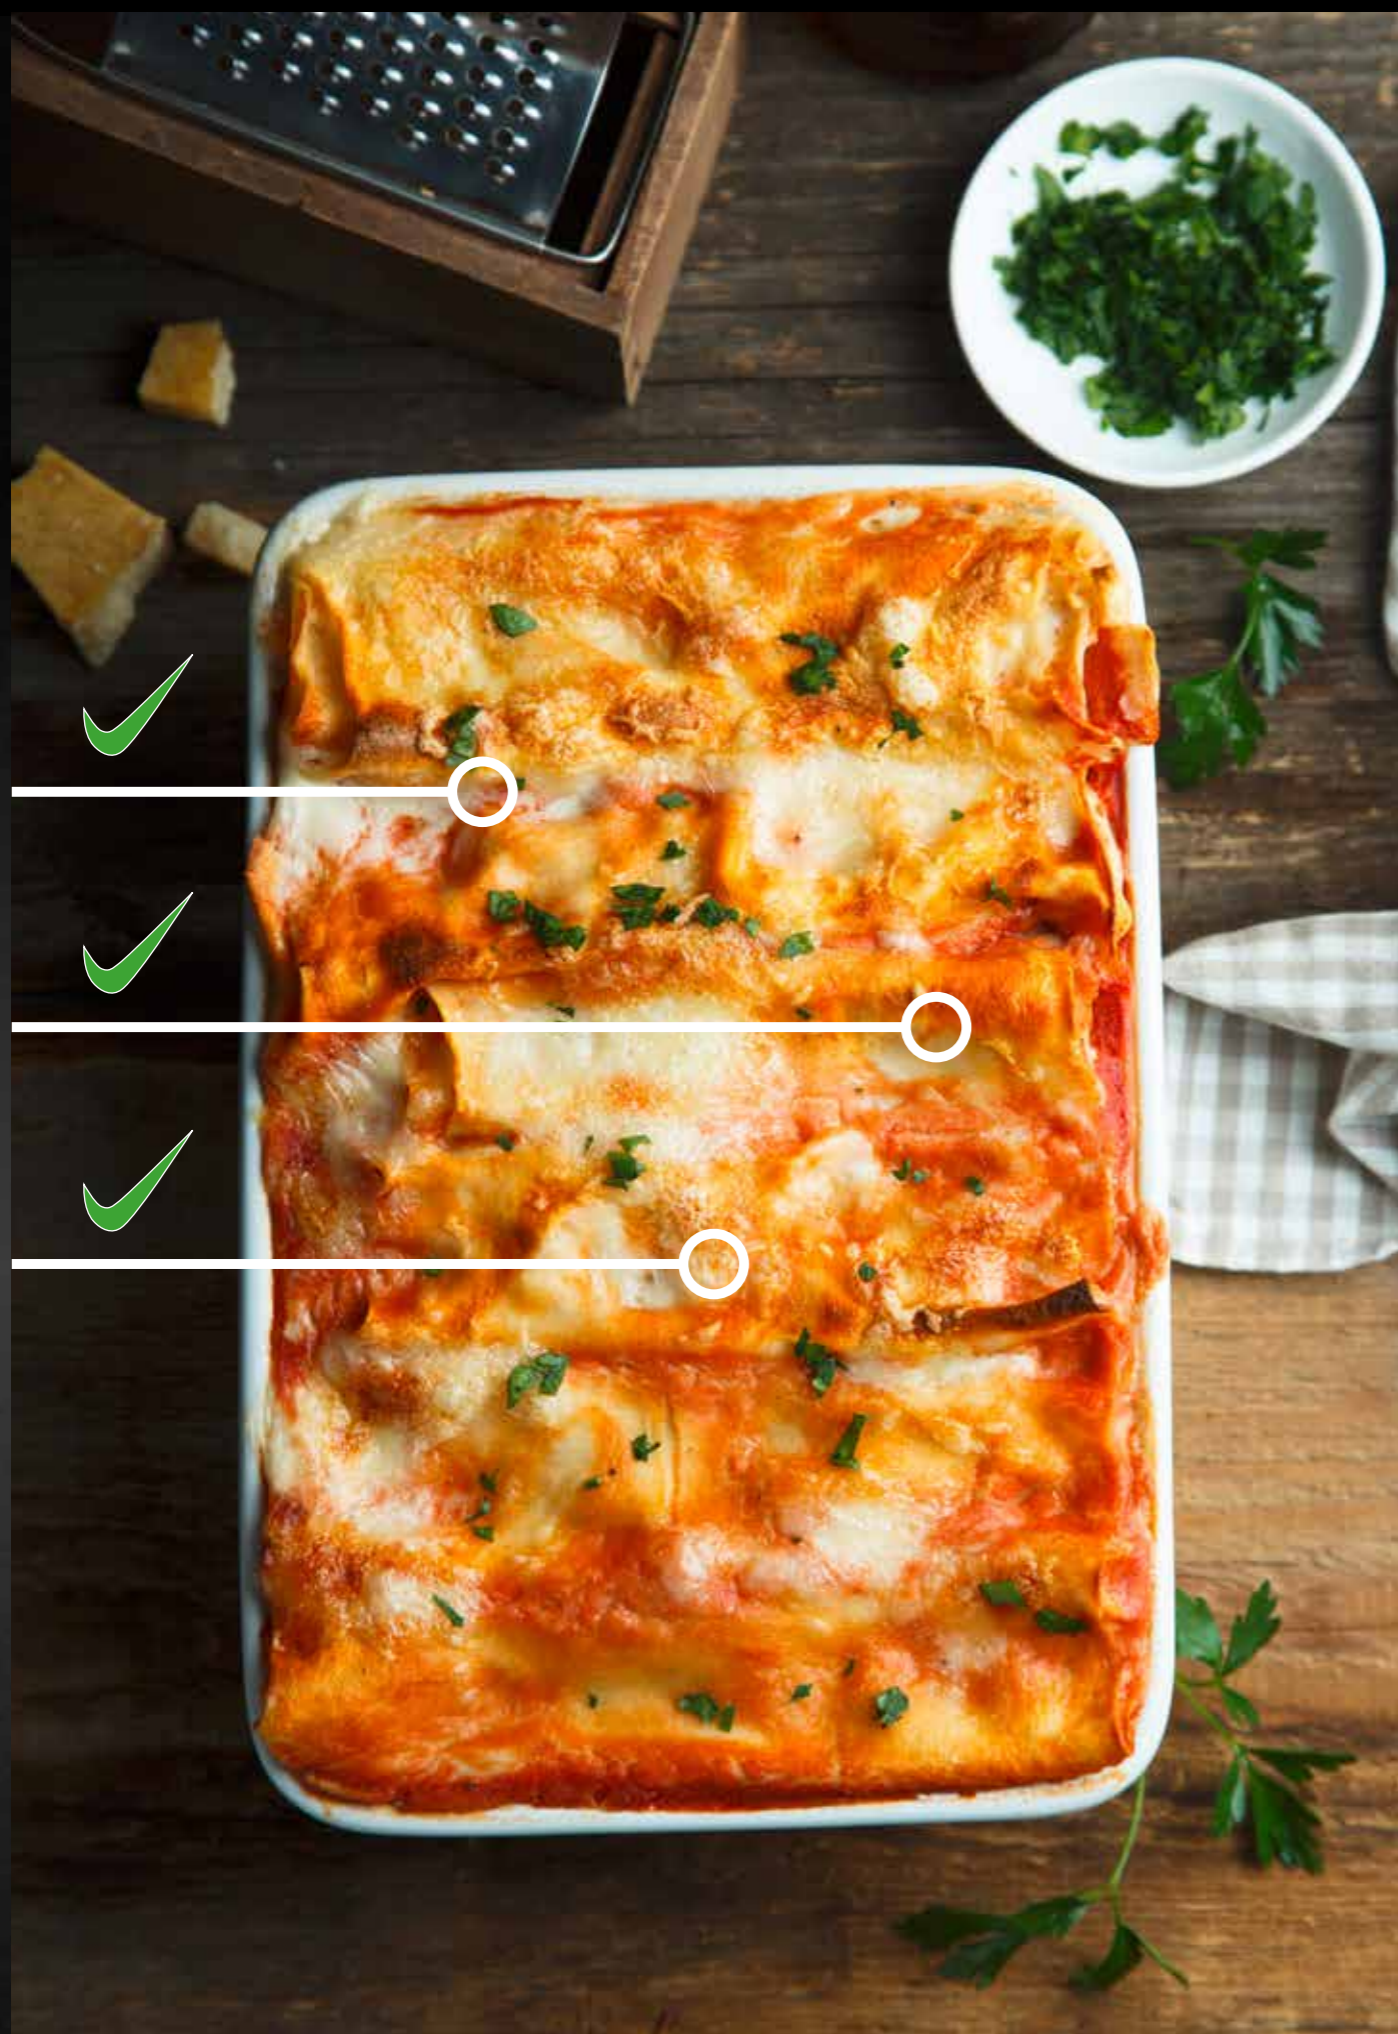

Turn on the light

One unique design characteristic is our LED light beside the control panel. This can be adjusted variably, either using dimmed, full brightness or pulsing white light!

EVERY SPOT HEATED TO PERFECTION!

The high-tech **ceramic bottom** with integrated **reflector** ensures an absolutely even heat distribution – for perfectly heated dishes in every single spot!

Microwave with microwave reflector
High-quality design microwave for optimum cooking, heating or defrosting of your dishes. Optimum results thanks to adjustable power levels.

Grill
A powerful 1000 watts quartz grill ensures even browning without the need to preheat!
(Depending on product features)

IDEALLY SUITED FOR ALL FORMATS!

Enjoy the spacy interior without a turning plate – for easiest cleaning and also large, rectangular oven dishes.

CERAMIC

CUBE

M 20 CUBE Ceramic

Item no. 3314

M 20 CUBE Ceramic

- + High-quality design microwave, ideal for cooking, heating and defrosting dishes
- + **CUBE controller for intuitive control**
