INNOVATIVE KITCHEN TECHNOLOGY

*Competence book*

# COMPETENCE BOOK

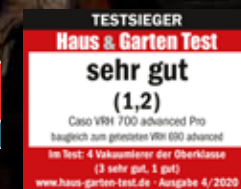

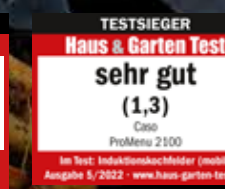

# Excellent Brand Quality

In 2025, CASO Design was honoured with the prestigious Plus X Award for Excellent Brand Quality. According to the jury, what truly sets the brand apart "is its commitment to seamlessly blending design and function, without ever compromising on quality."

"The brand continuously develops fresh ideas – always with a focus on user-friendliness, technical performance and contemporary energy efficiency. Its premium standards are evident not only in design, but also in feel, craftsmanship and the overall product experience. With this unique combination of innovation, design excellence and everyday practicality, CASO Design ranks among the leading names in modern household and kitchen appliances – transforming technology into a genuine lifestyle statement."

The jury's verdict: "CASO Design demonstrates that true brand quality emerges where form and function are perfectly aligned. The brand inspires with technology that not only works, but excites – intelligent, stylish and reliable."

# CASO Design – Culinary Perfection

CASO Design is the brand for everyone who loves to savour life.

From the very beginning, our mission has been to create products that deliver more joy in everyday use and more delight in every experience – through innovative features, elegant forms and truly clever ideas.

Our ambition is always to achieve the very best for our customers. In the following eight chapters, we present products that open up new possibilities, impress with sophisticated design and, above all, create unforgettable gourmet moments.

Indulge. With all your senses. With CASO Design.

Peter & Bernd Braukmann

# Chapter 1

## Cooking & grilling

### Cooking & grilling – modern, versatile, simple

Whether it's a quick weekday meal or a sociable dinner with friends, CASO Design turns cooking into an experience – with premium appliances such as microwaves, induction hobs, sous-vide cookers, contact grills, party pans and egg boilers.

Innovative technology, intuitive operation and well-thought-out design ensure comfort, efficiency and delicious results. This way, you always stay in full control – whether preparing a simple breakfast egg or a sophisticated multi-course menu.

### Precisely to the perfect result

Whether it's tender meat gently prepared in the sous-vide cooker, precise searing on the induction hob or even grilling on a modern contact grill – premium kitchen appliances deliver precision at the touch of a button.

Temperature, cooking time and power can be controlled with absolute accuracy, ensuring every dish turns out perfectly. For those who don't leave cooking to chance, but savour it consciously – with technology that truly makes the difference.

# CASO Design Microwaves and Their Unique Features

Whether analogue or touch control, classic turntable or innovative borosilicate glass base, compact, mid-size or large cooking cavities, silver, black or mirrored finishes, pure microwave function or even grill and genuine convection oven – CASO Design offers the right microwave for every preference.

Below you will find the key microwave features and highlights.

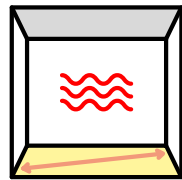

## Flexible Bases

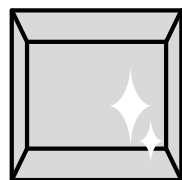

### Microwaves with Turntable – the Classic

The rotating turntable ensures even distribution of microwaves inside the cavity, delivering reliably uniform results.

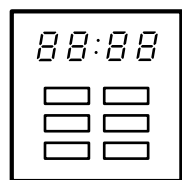

### Microwaves with Innovative CASOTEK® Borosilicate Glass Base

The heat-resistant borosilicate glass base with integrated microwave reflector guarantees even distribution of microwaves, so food is perfectly cooked from all sides. The flat base is easy to clean and allows the use of large, rectangular casseroles or plates – no turntable required.

### Cooking Cavity with CASO-Clean Coating

The special non-stick coating ensures the interior is exceptionally easy to clean. Residues can be removed quickly and effortlessly. Depending on your kitchen space and cooking preferences, you can choose between 20, 25 or even 30 litres of capacity.

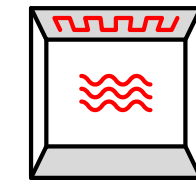

### Analogue or Semi-Digital Controls

Using rotary dials and/or buttons, power level and cooking time can be set conveniently. Semi-digital models also feature a built-in display for added precision.

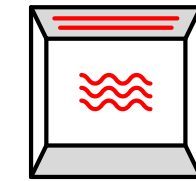

## Grill Technology in the Microwave? Absolutely!

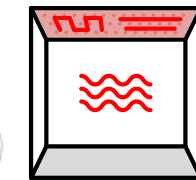

### Basic Heating Element

The heating rod mounted at the top of the microwave provides direct radiant heat for fast gratinating.

### Turbo Quartz Grill

Two quartz tubes integrated into the microwave ceiling generate intense radiant heat – no preheating required. As they are mounted inside the ceiling, they remain hidden and protected from dirt.

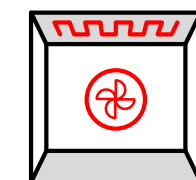

### Combi-Grill

This combination of Basic Heating Element and Turbo Quartz Grill unites the benefits of both technologies. The integrated quartz tubes provide strong initial heat without preheating, while the heating element maintains a consistent, gentle temperature. The result: fast, perfectly gratinated dishes.

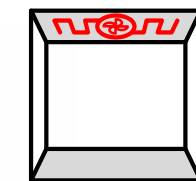

## More Than Just Hot Air – Genuine Oven Convection

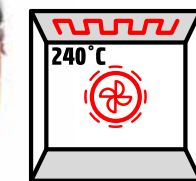

### Simple Convection

The microwave is equipped with a heating element (quartz and/or rod), which generates heat. A fan distributes this evenly throughout the cooking cavity, allowing baking and grilling at lower temperatures with uniform results.

### Compact Convection

This version also uses heating elements, but the fan is integrated into the ceiling. Heat is distributed evenly, while the appliance itself remains shallower in depth compared to conventional simple-convection microwaves.

### Real Oven Convection / High Convection

Here, a ring heating element is integrated directly with the fan at the rear of the microwave. Heated air is blown straight into the cooking cavity, creating genuine oven-style convection of up to 240 °C. These models allow you to bake just like in a traditional oven – even on two levels. Thanks to the innovative technology, there's no need for preheating.

## Microwave analogue

## M 20 Ecostyle

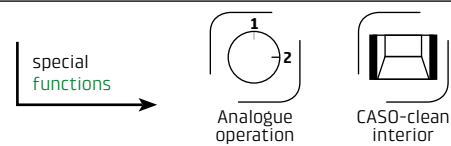

Item 3307

## Microwave analogue + grill function

## MG 20 Ecostyle Ceramic

Item 3316

- + Microwave power 700 watt
- + **6 power levels**

Microwave semi-digital + grill function + convection

**HCMG 25 Ceramic Chef**

240 °C real oven hot air

Item 3355

- + Compact microwave for defrosting and heating, cooking and baking, grilling and grating
- + **Approx. 25 litre cooking chamber\* with base made of robust and heat-resistant borosilicate glass (approx. 26 x 26 cm) – ideal for example for square casseroles**
- + 900 watt microwave (output) / 1000 watt (input) grill / 2100 watt (input) hot air
- + 5 microwave power levels
- + **10 hot air temperatures from 150 - 240 °C – real oven hot air**
- + 10 automatic cooking programmes (for vegetables, meat etc.)
- + 4 combination programmes, for example microwave & hot air
- + Defrost function via weight or time setting
- + 95 minutes timer with end signal
- + Clear LED display with clock display
- + **Hygienic stainless steel interior with LED lighting**
- + With 2 anti-slip feet
- + Incl. accessories:
  - grill rack with 2 height options
  - CASOTEK® CrispyWave pizza pan

Keen chefs everywhere are delighted that microwaves are offering an increasing number of functions and technologies. The new **HCMG 25 Ceramic Chef** impresses with its triple cooking functions – microwave, grill and **true convection up to 240 °C**. This covers virtually every base. And that's not all. If you want to defrost an item and then grill it without having to select multiple settings, then the designer microwave's combined programmes are just what you need.

Thanks to its large heat-resistant borosilicate glass base, the 25-litre cooking chamber is ideal for even rectangular plates and casserole dishes. Additionally you can even make your own pizza using the pizza pan (included) and the convection setting.

# Modern Cooking with Induction

With intuitive sensor-touch controls across all models, cooking becomes effortless. Simmering, boiling, frying or simply keeping dishes warm – every function can be managed at a fingertip. All controls are seamlessly integrated under glass, ensuring both a sleek look and easy cleaning.

**This is induction at its best – fast, direct and simple.**

Thanks to advanced induction technology, heat is generated directly in the pan itself. This allows faster, more precise and energy-efficient cooking. The hob surface does not heat up; it only absorbs residual warmth from the pan.

## Single and Double Induction Hobs for Maximum Flexibility

CASO Design induction hobs are available as single or double models. Depending on your needs, they can serve as an additional hob, a warming plate or a full-fledged cooking solution for holiday homes and compact kitchens. Simply plug in and start cooking! Some double induction hobs also feature PowerSharing: the two cooking zones share a total of 3500 watts. If you use only the left or right zone, it provides up to 2400 watts; when both are in use, they share up to 3500 watts.

## Intuitive Sensor-Touch Control

The elegant full-glass surface pairs perfectly with sensor-touch operation. By lightly touching the control areas, the appliance is activated. The surface is easy to clean and prevents dust, liquids or other particles from entering the interior. Here, design and functionality are perfectly combined.

## Automatic pan recognition

The hob instantly recognises suitable induction cookware. If unsuitable cookware is placed on the hob, it gives a signal and does not switch to cooking mode.

## Slim Design

CASO Design induction hobs feature a sleek, space-saving design, allowing you to store them away easily whenever they are not in use.

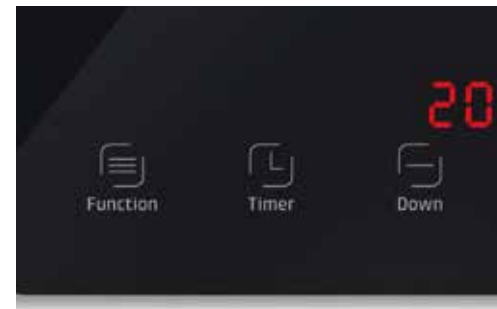

## Fast and Energy-Saving

Thanks to advanced technology, the hobs heat up especially quickly while operating with outstanding energy efficiency. This means you save both time and electricity – without compromising on performance.

## Individually Adjustable

CASO Design induction hobs offer 10 or 12 temperature levels, reaching up to 240 °C, and 10 or 12 power levels for comfortable simmering and cooking. Selected models also feature temperature adjustment in precise 10 °C increments.

## Timing Is Everything

With the integrated timer function, cooking times can be set precisely for up to 180 or 240 minutes. Once the time has elapsed, the hob switches off automatically – for greater safety and convenience.

## ThermoControl Thermometer – Precision Cooking

The optional ThermoControl thermometer measures temperature directly in the pot or pan, as well as the core temperature of meat. This ensures dishes are cooked to perfection – ideal for demanding recipes, sous-vide cooking or simply keeping food warm.

## Elegant and Easy-Care Glass-Ceramic

Depending on the model, the hobs feature a premium full-glass surface or a Schott Ceran® surface made from environmentally friendly Ceran Suprema®. The elegant design blends seamlessly into any kitchen, while the smooth surface is exceptionally easy to clean. Robust, heat-resistant and stylish – perfect for discerning cooks.

- + **Induction plate can also be used without ThermoControl thermometer**
  - Adjustable temperature range from 60 - 240 °C
- + Powerful 2400 watts
- + Automatic pot detection
- + For induction cookware from 12 - 26 cm Ø
- + Intuitive sensor-touch operation
- + Precision cooking with SmartControl with 12 different power levels
- + Safe thanks to overheating protection
- + Selectable timer function up to 180 minutes
- + Very easy cleaning

#### 1000 and 1 ideas: Variable cooking techniques using one device

The combination of an induction hob with CASO Design **ThermoControl** technology is so inspiring that chefs won't want to put down their "digital wooden spoon". Endless recipes, whether vegetables, fish or meat, can be perfectly prepared thanks to the precise measuring of temperatures in 1 °C steps. When the ThermoControl thermometer measures the temperature it is automatically compared with the induction cooking zone's heat control system, ensuring that an extremely precise temperature can be achieved.

## Sous Vide – the Gentle Way to Cook

For those who love perfectly tender meat and fish, or crisp vegetables rich in nutrients, CASO Design sous-vide cookers are a must. Food is vacuum-sealed in a bag and gently cooked at low temperature to perfection. Flavours and nutrients are preserved for ultimate enjoyment. And for those who like an extra touch of flavour, the meat can simply be seared briefly afterwards.

### Waterproof to IPX7 Standard

CASO sous-vide sticks are IPX7 certified, making them reliably protected against water ingress. Even if accidentally immersed, the technology remains safe – ensuring maximum durability and safety in the kitchen.

### App-Controlled Precision

With the CASO Control App, sous-vide sticks can be operated conveniently via smartphone. Temperature, time and programmes can be set and monitored at any moment – precise cooking with maximum convenience.

### Exact Temperature Control up to 90 °C

Temperatures can be set precisely up to 90 °C, making the sticks ideal for sous-vide cooking, tempering chocolate or heating delicate foods. The precise 0.5 °C adjustments guarantee perfect results every time.

### It's All About Time

With an extra-long timer of up to 99 hours, even time-intensive processes such as pulled pork or yoghurt preparation can be planned with ease. Flexible time settings allow perfectly cooked results – without constant supervision.

### 3D Circulation for Even Heat Distribution

The integrated water circulation system ensures an even temperature throughout the entire container. Every ingredient is cooked with precision, no matter where it is placed in the water bath.

### Flexible Mounting: Screw Clamp or Clip Holder

Depending on the model, CASO sous-vide sticks can be attached securely with a robust screw clamp or a practical clip holder – offering maximum flexibility in the kitchen.

### Versatile Use – Far Beyond Meat

From tender meat and juicy fish to crunchy vegetables and delicate foods such as yoghurt, baby food or chocolate – CASO sous-vide sticks are true all-rounders for flavourful, healthy and precise cooking.

### Designed for Containers up to 20 Litres

With the ability to heat containers of up to 20 litres, CASO sous-vide sticks are ideal for preparing larger quantities effortlessly and evenly. Whether cooking for yourself, your partner, friends or the whole family – perfect for everyday meals as well as special gourmet occasions.

Sous vide stick

SV 400

Item 1310

- + **Perfect for SousVide cooking, preparing yoghurt, heating baby food in the glass, tempering couverture in the water bath and much more**
- + Strong 1000 watts of power in a compact design
- + Space-saving storage
- + **Waterproof by IPX7-standard\***
- + Suitable for all heat-resistant vessels with a height of at least 16 cm and a volume of 6 to 20 liters
- + **Temperature setting: 25 - 90 °C (in 0,1 °C steps)**
- + White LED display with sensor touch control panel
- + Timer function: From 1 minute to 99 hours (up to 2 hours in 1 increments, from 2 hours in 5 minute increments)
- + With a practical srew cap - srew cap width: 2 cm (without rubber stopper 3 cm)

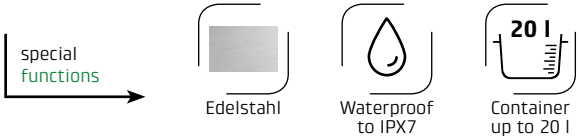

Sous vide stick

SV 1200 Smart

Item 1328

- + **SousVide cooker with simple clamp mounting for flexible SousVide cooking of Michelin star quality**
- + Perfect for meat, fish and vegetables
- + Also suitable for heating baby food in the glass, for tempering of couverture in a water bath, the preparation of yoghurt and for the gentle thawing of frozen products
- + **Rapid of heating of water due to powerful 1200 watt system**
- + **Appliance is completely water-resistant according to IPX7 standard\***
- + Precise temperature control up to 90 °C increments in 0.5 °C increments (32 - 194 °F)
- + Timer function: can be precisely set in 1 minute increments up to 99 hours 59 minutes
- + Heats up to 20 litres water to precisely within 0.5 °C\*\*
- + **Smart Control: SousVide Stick can be controlled and read with the CASO Control App**
- + Simple operation of the LED display using a sensor-touch control panel
- + **3D circulation: Constant temperature due to water circulation**
- + Compact SousVide cooker: Space-saving storage & easy to clean
- + Suitable for virtually all heat-resistant vessels

\*Protection against temporary submersion  
\*\*Depending on the isolation of the container

Chapter 1 – Cooking & grilling

The CASO Control App –

Sous vide cooking via smartphone

Smart Control: Your app-enabled sous vide stick can be easily controlled, monitored and read using the CASO Control app.

Sous vide cooking with an app – Tender and smart

CASO Design offers sous vide sticks that can not only be controlled manually, but also via a smartphone for maximum convenience. Cooking using this method can sometimes take several hours, so using the app means that you don't have to be near the sous vide cooker all the time. Instead, you can treat yourself to some me time while using the app to take an occasional look at how cooking is progressing and, if required, making adjustments.

Simply download the free CASO Control app from the app store of your choice; connect everything via Wi-Fi and then prepare your gourmet dishes more easily than ever before.

# Sous vide star kitchen in 3 steps

## Sous vide melts in your mouth

Sous vide, cooking “under a vacuum”, is becoming increasingly popular, also with amateur chefs. The advantages are obvious. Food that is cooked in a vacuum retains its natural flavour; meat and fish become tender and juicy; nutrients, vitamins and trace elements are preserved and vegetables stay crunchy and colourful. Sous vide cookers are also genuine allrounders – perfect for preparing yoghurt; warming up baby food in jars; tempering chocolate in a water bath and much more besides.

## So simple and so perfect

Cooking a sous vide recipe couldn't be any easier. No prior knowledge is required to achieve perfect results. The components of the dish can be combined when you fill the bag. When doing so, all the basic ingredients, such as oil, seasoning and vegetables, are sealed in a vacuum bag and then heated in water at a low temperature until they are fully cooked.

Marinating and seasoning the dish before it is vacuum sealed ensures even better results.

**To bring “sous vide” to your kitchen, you will require a vacuum sealer and a sous vide cooker that maintains a consistent temperature during the cooking process.**

**Step 1**  
Vacuum food

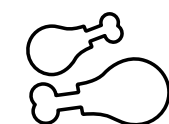

**Step 2**  
Set the time and temperature according to the recipe and start

**With the CASO success guarantee**  
Water temperature = maximum cooking temperature

**Step 3**  
If necessary, fry the meat briefly and spicy again, arrange it on the plate and enjoy – so simple and perfect

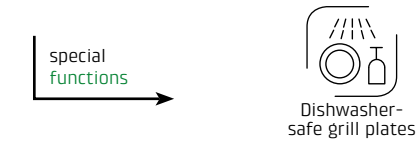

Double contact grill

SteakChef

Item 2837

- + High-quality housing with glass cover
- + High grill variety - meat, vegetables, fish, hamburgers, panini, poultry, skewers and much more.
- + **Grill plates with PFAS-free non-stick ceramic coating**
- + **Super fast and even grilling thanks to 2,000 watts of power and integrated heating elements in the grill plates**
- + **Grill plates and grease drip tray can be easily removed – for easy and convenient cleaning (dishwasher-safe)**
- + Intuitive control via rotary control for temperature (100 - 220 °C) and timer (up to 30 min)
- + Integrated switch-on and 'ready-to-use' indicator light (Heating up = red, temperature reached = green)
- + **Can be used as a table grill when fully opened**
- + Large total grilling surface approx. 1440 mm<sup>2</sup>
- + Long 115 cm power cable

Double contact grill with ThermoControl

SteakMaster Pro

Item 2838

- + 3-in-1 double contact grill – can be used as a contact grill (height-adjustable in 5 stages), panini press and table grill
- + **Perfectly cooked thanks to the integrated grill thermometer – determines the exact core temperature of your grilled food**
- + Digital touch control panel with practical programme selection for burgers/panini, poultry, sausage, meat, fish and vegetables
- + **Very easy to clean thanks to the removable grill plates with integrated heating elements and non-stick ceramic coating - 1x ribbed, 1x smooth (PFAS-free and dishwasher-safe)**
- + **Can be used as an XXL table grill when opened (180 °) – very large grill surface of approx. 1,632 cm<sup>2</sup> (34 x 24 cm per plate)**
- + Super fast grilling thanks to 2,000 watts of power
- + Manually adjustable temperature from 80 - 240 °C and timer up to 60 min
- + Incl. removable fat drip tray

## Egg boiler

E 3

Item 2774

- + Egg boiler for up to 3 eggs
- + **Space-saving design**
- + **Saves time, energy and water in comparison to boiling eggs on the stove**
- + High-quality stainless steel operating panel
- + Electronic control of boiling time, no water measuring required
- + **Infinitely variable control knob for the desired degree of hardness from soft to hard (boiling time up to 15 mins)**
- + Removable egg holder allows quick cooling of eggs under running water
- + Removable transparent cover with handle
- + White LED indicates the operating mode
- + Automatic switch-off with acoustic signal at the end of boiling time thanks to overheating protection
- + Easy-to-clean heating plate
- + Incl. measuring cup with integrated egg piercer

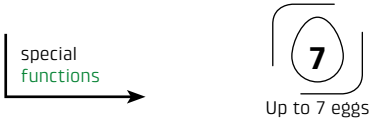

## Egg boiler

E 7

Item 2770

- + Electronic egg cooker for 7 eggs
- + High-quality stainless steel design
- + **Elektronically controlled – measuring of water not necessary**
- + No residues (lime & minerals) on the base plate, because water doesn't evaporate completely
- + No release of odor due to leaking eggs
- + **Non stick-coated cooking bowl**
- + 13 cooking levels, electronically controlled
- + Control lamp with ON/OFF switch
- + Acoustic signal
- + Measuring cup with egg piercer
- + Removable egg holder

## Chapter 2

# Baking

### Baking Made Easy with Smart Kitchen Helpers

Crispy pizza, golden waffles, fresh toast or low-fat snacks from the air fryer – with modern appliances such as compact ovens, pizza ovens, crêpe makers and toasters, baking becomes effortless. High-quality materials, even heat distribution and intuitive operation ensure reliable results every time. Perfect for anyone who values great taste – quick, simple and always baked to perfection.

## The Right Appliance for Every Taste

Sweeten your Sunday with a crêpe maker, create crispy snacks in the air fryer or give timeless classics a new twist in the pizza oven – modern baking appliances open up endless possibilities for creative moments of indulgence.

Whether sweet or savoury, traditional or experimental, the right technology ensures perfect results. Turn your kitchen into a creative baking studio – where every bite becomes a little experience.

## Air Fryers: The All-in-One Solution!

CASO Design air fryers are incredibly versatile and a perfect replacement for an oven – only faster and more energy-efficient. Baking, cooking, gratinating, dehydrating and much more is effortless with these compact all-rounders. From meat, fish and vegetables to cakes, pizza or fries – air fryers deliver perfect results across the board.

### The Perfect Symbiosis

Healthy eating and fast preparation go hand in hand with CASO Design air fryers. Hot air circulation means no additional fat is required, while meals are ready in less time as there's no preheating needed. With low energy consumption and shorter cooking times, air fryers are true savers of energy, money and time.

### Less Fat, Full Flavour

If you think fat alone makes food tasty, CASO Design air fryers will surprise you. This cooking method reduces the need for oil and fat without compromising on flavour. For example, fries can be prepared with just a spoonful of oil – or none at all. At a time when healthy, conscious eating is more important than ever, air fryers are in higher demand than ever before.

### Remarkably Quiet

Despite their impressive power, these compact wonders operate with very little noise. Depending on the model, CASO Design air fryers run between 38 and 42 dB – often quieter than many microwaves and ovens.

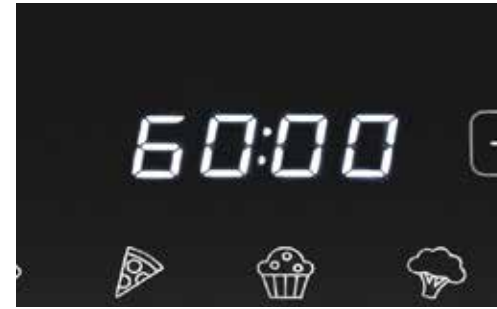

### Room for Culinary Creativity

CASO Design air fryers offer generous basket and cavity sizes – from 6, 7, 14 and even up to 22 litres. Perfect for anything from small snacks to big meals with friends and family.

### Extra Hot Performance!

CASO Design air fryers reach up to 200 or even 230 °C. Most dishes require around 20 °C less than conventional recipes suggest, making preparation faster and more efficient.

### Timing Is Everything

Unlike a conventional oven, every air fryer comes with a built-in timer that automatically ends the cooking process after the selected time. Depending on the model, the timer can be set individually from 1–60/90/120 minutes. In addition, pre-set time programmes make cooking even more convenient.

### Perfect Settings

With pre-set cooking programmes, dishes can be prepared quickly and easily. Each programme is perfectly matched to the food, ensuring delicious results every time.

### Delicate Results with Steam

The additional steam function turns every dish into a true delight. Fish comes out tender, cakes become fluffy and vegetables retain their natural flavour. The reheat function also uses steam to gently warm food while preserving taste and nutrients.

### A Clear View While Cooking

Thanks to the innovative viewing window and integrated interior lighting, you can check on the cooking process at any time – without having to open the appliance.

## Shake for Perfect Crispiness

The shake reminder notifies you when it's time to shake your food – delivering optimal results and perfectly even browning on all sides.

## Premium Stainless-Steel Interior

The cooking cavity is crafted from food-safe, durable stainless steel – robust, hygienic and built to last.

## Even Power Convection

Advanced heat circulation technology ensures consistent temperatures throughout, so your food is cooked evenly from every angle.

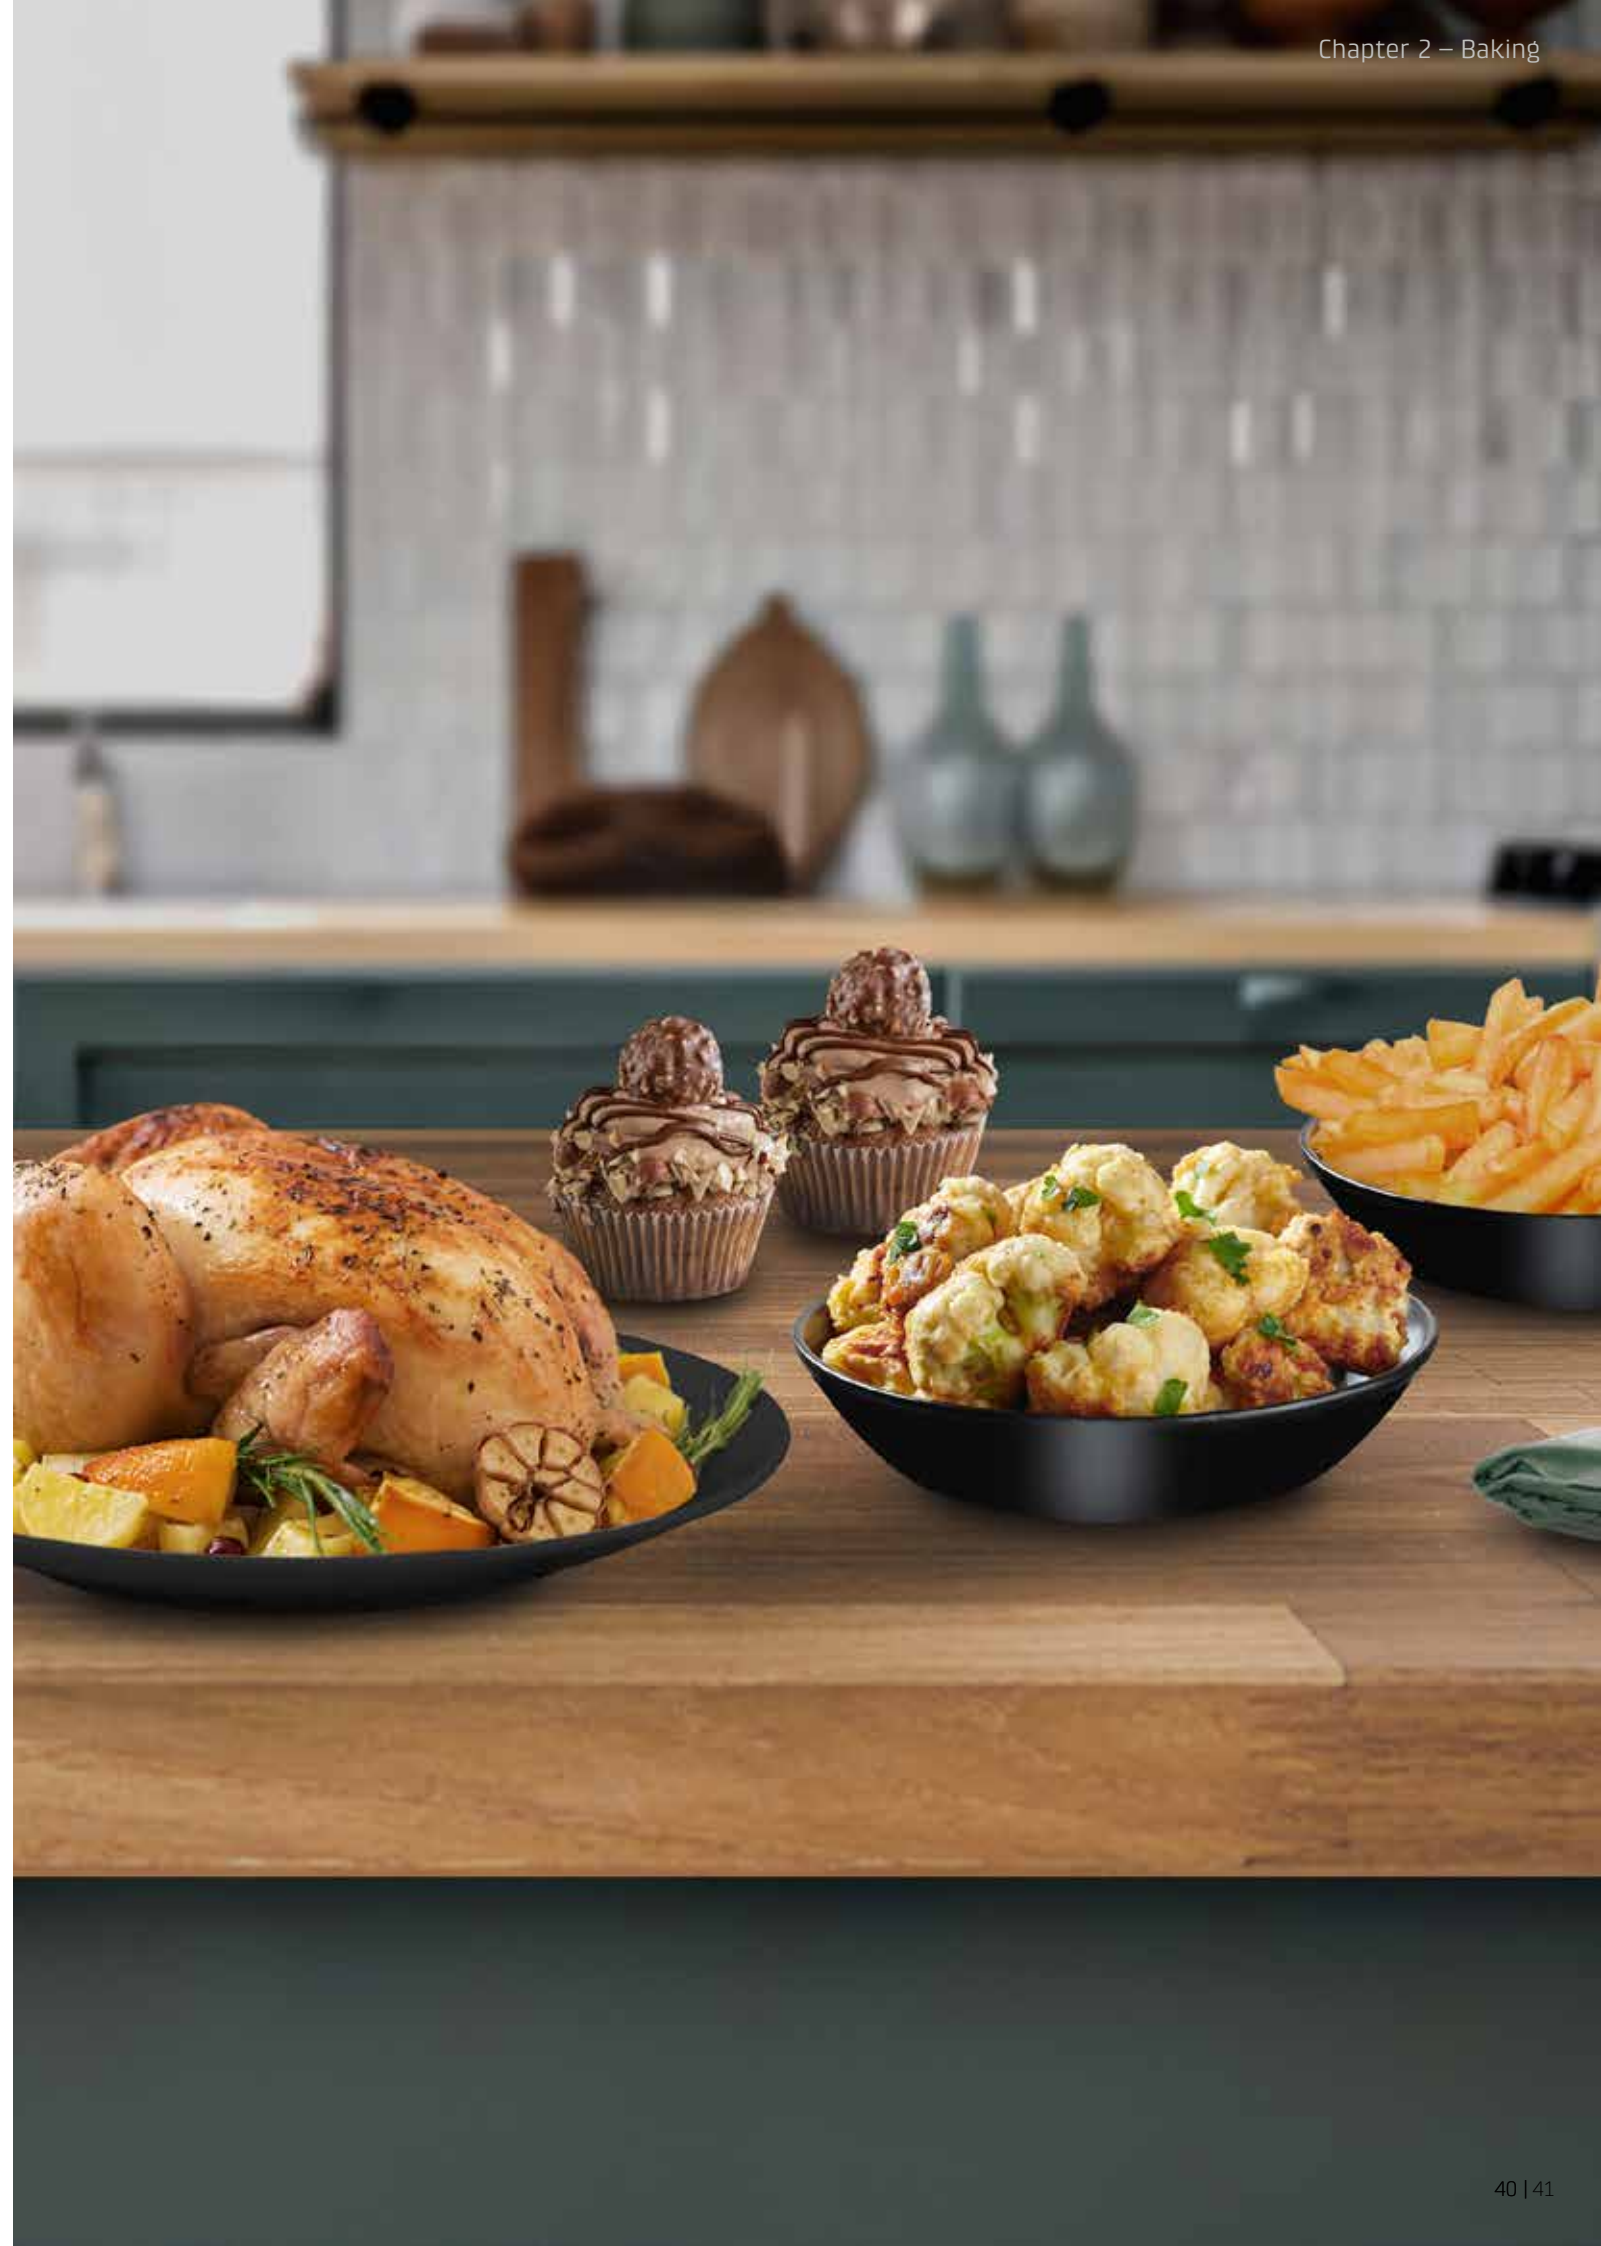

## Ready in No Time

CASO Design air fryers are not only faster than standard ovens when cooking – they also heat up instantly. Thanks to Rapid Heat Control, your air fryer is ready to go straight away.

## Smart Sensor-Touch Control

All models feature modern sensor-touch operation. A sleek glass surface makes cleaning effortless, while the robust control panel combines contemporary style with lasting functionality.

Design compact air fryer

AirFry 6.0

Item 3185

special functions

Baking & frying

High volume (6 l)

Particularly quiet (38 db)

Even heat distribution

- + Generous capacity, despite small footprint – 6-litre frying basket with a compact design

+ Prepare up to 1.2 kg of chips in one process

+ No oil needed for conscious and healthy eating

+ Multifunctional: frying, baking, roasting, reheating, dehydrating, gratinating and much more.

+ Up to 50% faster and up to 70% more energy-efficient than an oven

+ Even circulation thanks to the intelligent frying insert for the best flavour: Crispy on the outside, juicy on the inside

+ Customisable settings:
  - 50 - 200 °C in 5 °C increments
  - Timer from 1 - 60 min in 1 min increments
- + With 8 practical presets (chips, pizza, chicken, steak, cake, vegetables, fish and reheat)

+ Particularly quiet in operation (only 38 db)

+ Viewing window with switchable interior lighting – keep an eye on cooking progress

+ Ideal from all sides: The „Shake Reminder“ reminds you to shake the food half way through cooking

+ High-quality stainless steel interior

+ Safe thanks to automatic switch-off when removing the basket and cool-touch handle

Design air fryer

AirFry Chef 1700

Item 3000

special functions

Baking & frying

+ Crispy on the outside, tender on the inside thanks to reduced-fat preparation of your food

+ Wide range of included accessories provides the right equipment for every programme

+ 12 selectable programmes, such as air fry, bake, grill, dry fruit and many others

+ Even PowerConvection – Perfect, even hot air flow

+ Rapid HeatControl – Immediately ready to start without heating up

+ Elegant “black design” with large viewing window

+ 3 slot levels for the rack and tray + rotating roasting spit and frying basket

+ Including removable crumb tray for easy cleaning

+ Adjustable timer from 1 to 120 min / Dryfruit 240 min (in 1-minute increments)

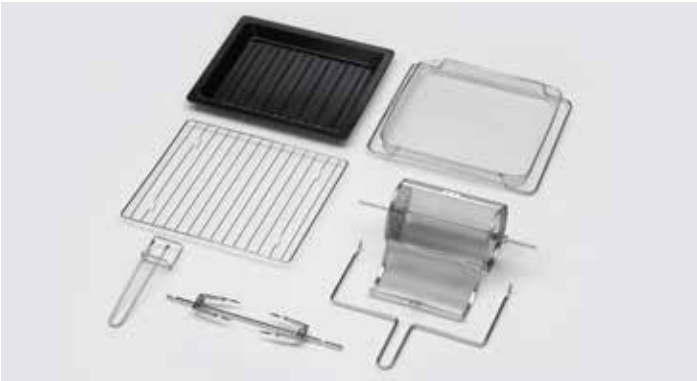

+ Temperature adjustable from 40 °C to 230 °C (in 5 °C increments)

+ Interior lighting can be switched on as required

+ 6 long-lasting stainless steel heating elements (4 at the top, 2 at the bottom)

+ Powerful 1700 watt performance

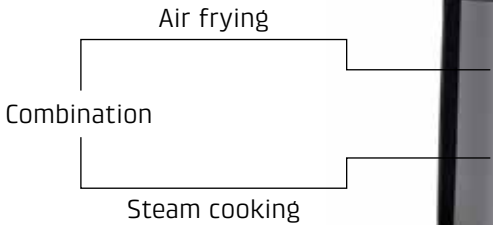

+ Accessories: Extra large frying basket, frying drum, baking tray, grill rack, rotisserie, 2 removal assistances

Design air fryer and steam oven all in one

AirFry & Steam 700

Item 3182

special functions

Baking & frying

Steam function 100 °C

High volume (7 l)

Particularly quiet (39 db)

Even heat distribution

- + Versatile air fryer for steam cooking, hot air frying or in combination
- + Extra-large basket with 7 litre capacity – also suitable for large portions such as whole fried chicken and up to 1.3 kg French fries
- + **Even PowerConvection** – even heat distribution throughout the cooking chamber
- + **Rapid HeatControl** – immediately ready for use, no warming up required
- + Healthy, low fat preparation of all kinds of food thanks to the **steam technology** – juicy on the inside, crispy on the outside
- + Large 1.5 litre water tank
- + Intuitive sensor touch control panel for easy operation
- + Transparent viewing window with switchable interior lighting – to monitor the cooking process
- + **3 in 1 AirFryer:**
  - AirFryer function (60 - 200 °C)
  - Steam function (100 °C)
  - AirFryer & steam function (140 - 200 °C)
- + Timer adjustable from 1 – 90 minutes with acoustic signal
- + **10 preset programs in 2 categories (AirFry and Steam)**
  - AirFry: AirFry, baking, roasting, reheating
  - Steam: Steam, steam baking, regenerating, steam cleaning
- + Easy cleaning thanks to dishwasher-safe basket, grate and removable water collection tray

Design double air fryer

AirFry DuoChef

Item 3186

special functions

Baking & frying

High volume (14 l)

Particularly quiet

Even heat distribution

Immediately ready to start

- + **Large, dual chamber air fryer with a total volume of 14 l (and 5.5 l per single chamber)**
- + **Versatile use as a duplex fryer and a large air fryer oven**
- + Separate air frying in the individual baskets or even heating in the air fry oven
- + Almost fat-free preparation for mindful, healthy nutrition
- + Up to 50 % faster and up to 70 % more energy-saving than a conventional oven
- + Optimal air circulation in the cooking chamber – for perfectly even, fast results
- + With 10 practical pre-setting's (French fries, chicken, vegetables, fish, steak and much more besides)
- + Customisable settings:
  - 50 - 200 °C in 5 °C increments
  - Timer from 1 - 60 min in 1 min increments
- + **HOLD function:** If the cooking times are different, the baskets start so that both are **ready at the same time**
- + Viewing window with interior lighting – enables monitoring of cooking progress at all times
- + **SHAKE reminder for even, extra crispy results**
- + **Baskets with BPA-free Teflon non-stick coating and safe, cool-touch handles**
- + Intuitive sensor touch screen with easy-to-read LED digital display
- + Wide range of accessories for more cooking options:
  - 2 baskets with internal racks
  - 1 large door with viewing window
  - Removable central dividing wall for larger cooking volume
  - 1 large perforated baking tray for French fries, pizza, etc.
  - 1 large baking tray
- + Baking trays and baskets are dishwasher safe

Pizza oven

PizzaChef 430°

Item 2984

special functions

430 °C hot pizza oven

Inkl. cordierite pizza stone

Short heating-up time

Sensor touch

- + Tasty pizza dishes from the 430 °C pizza oven
- + 8 automatic programmes such as Pinsa Romana, New York style, tarte flambée and other specialities – if desired, they can also be adjusted using the memory function
- + Heating elements (top or bottom heat) can be individually selected, ensuring perfect pizza
- + Easy operation thanks to digital display with sensor touch controls
- + Short heating-up time with even heat distribution
- + Includes high-quality, fast-heating 32 x 32 cm pizza stone made from cordierite
- + The triple glazing of the large front door and bright interior lighting allow you to monitor the baking process at all times
- + Safe and heat-resistant black steel housing with stainless steel decorative glass door and handle
- + Interior made of durable aluminum-coated steel
- + Temperature adjustable from 80 - 430 °C in 5 °C increments
- + Timer can be set for up to 60 minutes in 1-minute increments
- + Comes with: Cordierite pizza stone and aluminium pizza paddle (approx. 30 x 30 cm)

Design waffle maker

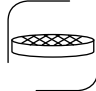

WaffleUp

- + Classic, sweet waffles
- + Potato waffles
- + Vegetable waffles
- + As a side dish, dessert or a full meal

Item 2932

special functions

Particularly thick waffles

Particularly clean work

Vertical design

Even baking results

- + Vertical baking system for perfect Belgian waffles (18 cm ø and 2.5 cm thick), sweet and savoury variations of all kinds and much more besides
- + An eye-catcher in any kitchen thanks to the modern, vertical design in polar silver and stainless steel
- + Batter can be poured in from the top for even distribution and optimum baking results
- + No-mess preparation thanks to the drip container for excess batter – batter doesn't stick to the device and is collected for re-use
- + Control knob with 5 selectable settings for the optimum degree of browning from light and fluffy to golden brown and crispy Belgian waffles
- + Easy removal of waffles thanks to double non-stick coating
- + With practical baking light:
  - Red light: Pour the batter into the device and bake
  - Green light: The waffle is done
- + Acoustic signal when the baking time is over
- + Integrated cord winder
- + Incl. ladle for easy batter pouring

# Chapter 3

## Store to maintain quality

### More Joy & Flavour with Your Food

As a premium brand, CASO Design stands for a sustainable, respectful and creative approach to food. We continuously strive to deliver more freshness, better storage and a more intense taste experience.

With the CASO Food Manager App, storing and tracking your food becomes even easier. Simply download it for free from your app store.

### Preserve, Don't Waste

A vacuum sealer protects food from air and moisture, while a dehydrator locks in valuable nutrients – keeping good things fresh for longer.

With CASO Design, storage becomes sustainable and responsible: less waste, more appreciation. These premium appliances help you preserve food with purpose, make the most of leftovers and plan your supplies smartly – for a conscious kitchen with a system.

### Vacuum sealers & dehydrator

Dehydrator	80

# The Right Vacuum Sealer for Every Kitchen

CASO Design offers the right vacuum sealing system for every requirement: compact hand-held sealers for on the go, powerful bar vacuum sealers for everyday use, and professional chamber vacuum sealers for the highest demands. All devices impress with intuitive operation, strong performance and lasting quality – ideal for fresh food storage, meal prep or sous-vide cooking at the highest level.

## Keep Food Fresh up to 8x Longer

By removing oxygen, vacuum sealing slows down oxidation and bacterial growth. As a result, food stays fresh up to eight times longer – without preservatives. Perfect for fresh ingredients, leftovers or pre-prepared meals, it reduces food waste and enhances enjoyment.

## Fully Automatic Vacuuming & Sealing

With just one touch, CASO Design vacuum sealers handle the entire process automatically – from extracting the air to securely sealing the bag. For perfect and reliable storage with minimal effort.

## Safe & Aroma-Tight Seals

For maximum storage safety, CASO vacuum sealers provide single or double seals up to 30 cm long, or extra-thick 2.5 mm seals. Everything remains aroma-tight – even liquids and foods stored for extended periods.

## A Variety of Vacuum Packaging Solutions

CASO Design offers the right option for every application – from structured vacuum bags and edge-seal bags to reusable zip bags and stackable vacuum containers. The system even includes vacuum stoppers for wine and oil bottles, making it as versatile as it is practical.

## Vacuum Canister Function

With the right adapter, special vacuum canisters can also be connected – perfect for delicate or liquid foods. This makes the vacuum system even more versatile, allowing gentle storage without deformation or leakage.

## Secure Sealing Systems

Whether classic wing closure, snap-in lid, sealing lever or automatic auto-lock, CASO Design offers the right sealing system for every model. All variants ensure a secure hold of the bags, easy handling and reliable results when vacuum sealing.

## Adjustable Sealing Time for Dry & Moist Foods

The sealing time can be customised depending on the type of food – dry or moist. This guarantees optimal sealing and prevents liquid from entering the seal seam. Perfect sealing for every application.

## Individually Adjustable Vacuum

With the vacuum stop button, the process can be interrupted manually – ideal for sensitive foods. Some models also feature adjustable vacuum strength, so the pressure can be matched precisely to the product. From soft pastries to delicate fish – everything retains its shape.

## Roll Compartment with Integrated Cutter

The integrated roll compartment with practical cutter allows vacuum rolls to be stored directly in the appliance and cut cleanly to size. This means bags are always at hand, individually customisable and offering maximum flexibility and organisation in your kitchen.

## Progress Indicator for Full Control

An LED or bar display shows the current status of the vacuum sealing process. From air extraction to sealing, you always know exactly where you are – and when the process is complete.

## Quick Marinate Function for Intense Flavour

With the marinate function, meat, fish or vegetables can be infused with flavour in just minutes. Thanks to the pulsating vacuum, the pores of the food open and close, allowing spices and marinades to penetrate deeply – for full flavour in record time.

## Multi-Cycle for Continuous Use

Perfect for semi-professional applications: depending on the model, up to 125 vacuum cycles are possible without interruption. The multi-cycle function makes CASO Design devices ideal for catering, gastronomy or large household supplies.

## 36-Month Extended Warranty

CASO Design stands for quality – which is why many vacuum sealers come with a voluntary extended warranty of up to 36 months. A strong statement of durability, reliability and trust in our technology.

## CASO Food Manager App

With the free CASO Food Manager App, you'll always stay on top of your vacuum-sealed supplies. Reminder functions and storage recommendations help avoid food waste and make the most of shelf life – digital, practical and sustainable.

Paired with CASO Food Manager stickers, organisation becomes even simpler and more convenient.

Hand vacuum sealer set

**Vacu OneTouch Eco-Set**

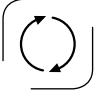

Item 1169

special functions

Cordless

Reusable accessories

- + Pump capacity: 3 liters / minute at -0.4 bar pressure
  - + **Cordless one-hand operation**
  - + **Long-life lithium-ion battery for up to 150 minutes runtime – vacuum even while charging**
  - + Convenient LED display - white when battery is full and red when battery is empty battery
  - + **Auto stop when vacuum is reached**
  - + Safety stop after 2 minutes if the device is switched on unintentionally
  - + Easy cleaning thanks to removable vacuum seal
  - + **Stackable glass vacuum container set with plastic lids for space-saving storage**
- + **Particularly suitable for items which are pressuresensitive and for liquids**
  - + Date display (day and month) integrated into the lid
  - + Versatile use thanks to microwavable, heat-resistant (up to 350 °C) glass bodies
  - + Glass bodies and lids can be used in the freezer (up to -18 °C) and are dishwasher-proof
  - + Inkl. 10 ZIP-Bags (5 pieces 20x23 cm, 3 pieces 26x23 cm, 2 pieces 26x35 cm), 3 vacuum containers, 2 ZIP lockers, USB-C charging cable and CASO food manager stickers

**Professional** hand vacuum sealer set

**Vacu OneTouch Pro Set**

special functions

Cordless

Freshness in just a few seconds

Reusable accessories

- + **Cordless professional vacuum sealer – simple, fast, everywhere**
  - + **Keep food fresh up to 8-times longer** in no time at all
  - + **Fully automatic vacuum sealing in seconds**
  - + Powerful pump capacity at 12 litres / minute
  - + Long-life lithium-ion battery for up to 85 min runtime
  - + Incl. charging station (USB-A and USB-C connection) – always a full battery, always at hand
- + **Incl. extensive accessories:**
    - 4 VacuBoxxes made of glass, stackable (2600 ml, 1500 ml, 800 ml, 500 ml)
    - 15 Vacu ZIP-Bags in different sizes
    - 3x “WineLock”, the aroma seal for your good wines and oils

Accessories for all Vacu OneTouch on pages 73 - 75

For wine + oil bottles and much more

**WineLock – Vacuum aroma seal** also available in a set of three, Item 1257

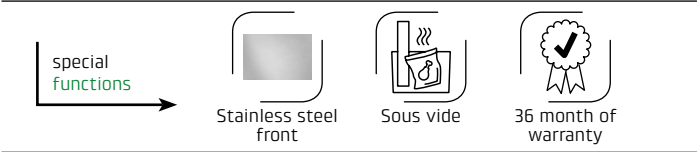

Vacuum sealer

VC 15

Item 1371

- + Fully automatic vacuuming and sealing
- + High quality stainless steel housing
- + **Weldseam at max. 30 cm and any bag length**
- + **Ideal for storing and maintaining freshness of fish, meat, vegetables and fruit**
- + **Variable vacuum strength through vacuum-stop button:** Particularly suitable for pressure-sensitive foods
- + Practical, separate welding function
- + Electronic temperature monitoring of weld seam
- + Compact design, light weight
- + Incl. 10 top-quality bags (20 x 30 cm) + 1 vacuum hose for vacuum containers\*

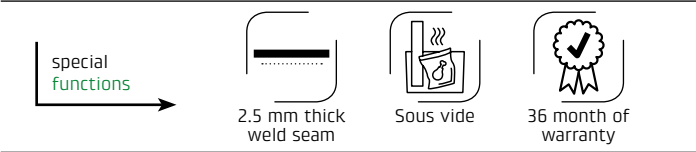

Vacuum sealer

HC 170

Item 1358

- + **Powerful and durable vacuum pump with up to 9 litres / min and a max. vacuum of -0.75 bar**
- + **Airtight sealing for foils up to 30 cm wide and with extra thick weld seam (2.5 mm)**
- + Versatile features:
  - Customised setting for dry and moist foods
  - Manual pulse function for gentle vacuuming of soft foods
  - Vacuum container function
- + **Practical, removable drip tray for simple and rapid cleaning**
- + Simple tracking of progress with the aid of the LED process display
- + Simple and intuitive operation
- + **Practical closure handle for convenient one-hand operation**
- + Includes 10 professional bags 20 x 30 cm and vacuuming hose for vacuum containers\*

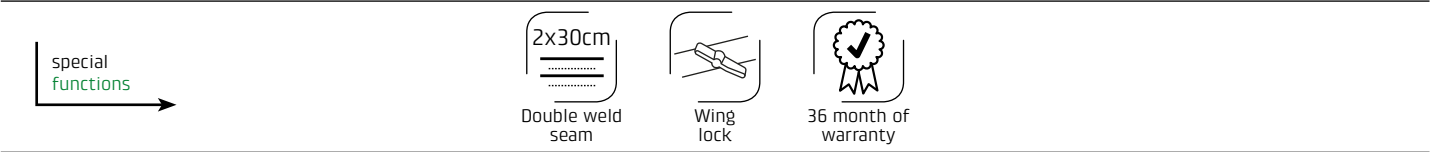

Vacuum sealer

GourmetVAC 180

Item 1384

- + **Secure vacuuming with double weld seam**
- + Functional, flat design for very quiet working
- + **Weld seam of max. 30 cm for any length, ideal for fish and meat**
- + Easy to clean thanks to removable drip tray
- + Vacuum regulation: use the stop button to regulate the vacuum strength
- + Piston pump (9 l/min) and powerful motor
- + **Practical wing lock for simple closing**
- + Electronic temperature monitoring
- + Varied functions: manual welding, automated vacuuming and welding
- + Incl. 10 professional bags 20 x 30 cm + 1 vacuum hose for vacuum containers\*

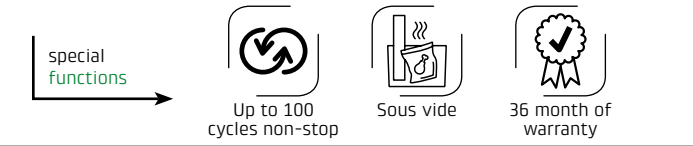

Vacuum sealer

VRH 490 advanced

Item 1525

- + **Different functions:**
  - Automatic vacuuming and sealing
  - Manual sealing
  - Manually adjustable, infinitely variable vacuum strength: ideal for sensitive foods
  - Vacuum container function\*
  - Adjustable sealing time for dry and moist foods
- + **For a particularly stable, 2.5 mm thick weld seam up to 30 cm width**
- + **Multi cycle: Up to 100 cycles non-stop possible**
- + Practical locking handle for convenient one-hand operation
- + Durable vacuum pump with up to 12 liters / min and a maximum negative pressure of -0.8 bar
- + High quality stainless steel design front
- + **Removable drip tray for any accumulated liquid**
- + Electronic temperature monitoring
- + Incl. 10 free professional vacuum bags (20 x 30 cm), 1 vacuum hose for vacuum containers, CASO Food Manager sticker and CASO Food Manager app

Multi-cycles

The vacuum sealers of the CASO Design advanced series enable, depending on the model, up to 100 / 125 / 150 / 200 vacuum sealing processes non-stop in a row.

Vacuum sealer

VRH 590 advanced

Item 1526

- + **High quality design stainless steel front with Anti-fingerprint coating**
- + **Multi cycle: Up to 125 welding processes non-stop (without overheating)**
- + **Different functions:**
  - Automatic vacuuming and sealing
  - Manual welding
  - Adjustable welding time for dry and moist foods
  - Pulse function: Manually adjustable, infinitely variable vacuum strength, ideal for sensitive foods
  - Marinating function
  - Vacuum container function\*
- + **Integrated foil box with practical cutter for cutting the vacuum rolls**
- + **2,5 mm thick, stable weld seam for bags up to a maximum width of 30 cm and any length**
- + Convenient one-hand operation by foldable locking handle
- + Durable vacuum pump with up to 12 l/min and a maximum negative pressure of -0.8 bar
- + **Removable drip tray for any accumulated liquid**
- + Electronic temperature monitoring
- + Incl. 1 professional roll 28 x 300 cm, 10 professional bags 20 x 30 cm, 1 vacuum hose for vacuuming vacuum containers\*, CASO Food Manager sticker and CASO Food Manager app

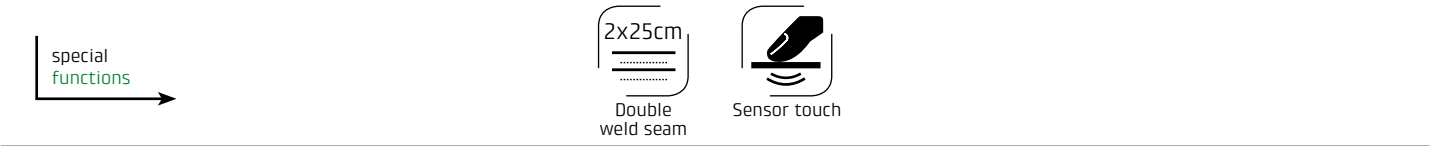

\*Vacuum containers not included

Chamber vacuum sealer with professional technology

VacuChef 40

Item 1417

- + **Compact chamber vacuum system, ideal for keeping fresh and marinating**
- + Chamber size [WxHxD]: 265 x 60 x 265 mm (approx. 3 l)
- + **Strong professionell vacuum pump: 70 l/min**
- + Almost 100% vacuum
- + **Double weld seam for bags up to a width of 25 cm**
- + With integrated clamping bracket for a firm hold of the vacuum bags
- + **Versatile functions:**
  - Combined vacuuming and sealing with individual settings for hard and soft, as well as dry and moist foods
  - Manual sealing
  - Automatic marinating in the bag
  - Also suitable for the vacuuming of vacuum containers\* (necessary vacuum hose included)
- + Practical progress display
- + **High-quality vacuum sealer: housing made of stainless steel and glass lid made of tempered glass**
- + Vacuuming outside of the device also possible with structured bags
- + **Simple and intuitive operation via touch control panel**
- + Items delivered:
  - 20 vacuum bags 25 x 28 cm
  - 1 vacuum hose for vacuum containers\*

Chamber vacuum sealers, as the name suggests, have a closed chamber in which the vacuum is created. Even liquids and pressure-sensitive foods can be vacuum-packed without any problems and without crushing anything. Containers are also no problem for the professional devices. Both even sealed edge bags and structured bags can be used for vacuum sealing.

## A CASO Food Manager App – A digital look into the refrigerator

The app that organises your food –  
waste less, save more money.

### Use the stickers and app to keep track of your food items

CASO Food Management delivers sustainability and structure. We have supplemented our vacuum bags and rolls with write-on stickers and a link to the CASO Food Manager app. A QR code provides a link to the app.

The CASO Food Manager app helps you get a better overview of your food items. This ensures that you always have an overview of the items in your fridge and can see which ones are available or need to be used.

Rib structure

ZIP Bags = reusable

Suitable for sous vide cooking

- + **ZIP-Bags**
  - + 10 bags per pack: 5 pcs 20 x 23 cm, 3 pcs 26 x 35 cm, 2 pcs 26 x 40 cm
- + **Material thickness 150 µm:** Particularly strong and tear-resistant – even with pointed objects, e.g. (fish) bones
- + Stable **rib structure** for 100% tightness
- + **Protection against freezer burn**
- + **Longer shelf life of foods:** Up to 8 times longer fresh
- + **Microwaveable** (up to 12 min at 650 watts\*)
- + Dishwasher safe und **reusable**
- + **Sous Vide-suitable:** Cook-proof up to 100 °C for max. 8 h
- + With **free food manager stickers** to organize and store your food and 2 ZIP lockers

- + **ZIP adapter and vacuum hose**
  - + For vacuuming with reusable ZIP bags without handheld vacuum sealer
  - + For vacuum sealer with a suitable hose

Allows you to vacuum the VacuBoxxes Eco and the ZIP bags with a bar vacuum sealer with hose connection.

Vacuum containers

VacuBoxx Eco-Serie

VacuBoxx Eco-Duo S, item 1175

VacuBoxx Eco M, item 1166

VacuBoxx Eco L, item 1176

VacuBoxx Eco-Set, item 1177

special functions →

Stackable (only VacuBoxx Eco)

Microwave safe (without lid)

Dishwasher safe

Oven safe (without lid)

Suitable for freezing

Reusable

- + **Stackable glass vacuum containers** with SAN lids for space-saving storage
- + Remove air from the containers to **keep your food fresh for longer**
- + **Particularly suitable for items which are pressure-sensitive and for liquids**
- + Date display (day and month) integrated into the lid
- + Perfect for storing, transporting and serving food
- + **Versatile use thanks to microwavable, heat-resistant (up to 350 °C) glass bodies**
- + Glass bodies and lids can be used in the freezer (up to -18 °C) and are dishwasher-proof
- + BPA-free – particularly suitable for baby food
- + **Available in the following sizes:**
  - **VacuBoxx Eco-Duo S**, item 1175
    - 2 containers with 500 ml capacity each
  - **VacuBoxx Eco M**, item 1166
    - 1 container with 800 ml capacity
  - **VacuBoxx Eco L**, item 1176
    - 1 container with 1500 ml capacity
  - **VacuBoxx Eco-Set**, item 1177, consisting of
    - 1 container with 1500 ml capacity
    - 2 containers with 500 ml capacity each
    - 1 vacuum hose with adapter

Vacuum containers

VacuBoxx E

- + **High quality, square glass vacuum container with Tritan lid**
- + Ideal e.g. for raw and cooked vegetables, meat, pastries, fruit, cold meats, cheeses, soups etc.
- + Perfect for storing, transporting and serving food – even for sensitive foods
- + **Wide range of applications thanks to freeze and microwave compatibility glass container**
- + BPA-free: also suitable for baby food
- + Exact date setting (day and month)
- + **With extra strong seal for a secure closure**
- + Dishwasher safe
- + Available in sets of 4 or individually:
  - VacuBoxx ES, 370 ml, item 1190
  - VacuBoxx EM, 600 ml, item 1191
  - VacuBoxx EL, 1000 ml, item 1192
  - VacuBoxx EXL, 1500 ml, item 1193
  - VacuBoxx E-Set (4 pcs), contains each box 1x + hand pump and adapter, item 1197
- + Can be vacuumed with a bar vacuum sealer with a hose connection (adapter required, item 1178) or with all Vacu OneTouch hand vacuum sealers (see pages 62 - 63)

Vacuum containers with stainless steel lid

VacuBoxx Inox XL

special functions →

Stainless steel lid

Microwave safe (without lid)

Dishwasher safe

Oven safe (without lid)

Suitable for freezing

- + Vacuum containers made of borosilicate glass and with stainless steel lid with a capacity of 2600 ml or 4500 ml
- + **For a longer shelf life of your food with the help of your vacuum sealer:** Flavours and nutrients are safely preserved, food waste is reduced
- + Particularly suitable for pressure-sensitive and liquid foods
- + Perfect for storing, transporting and serving food
- + **Versatile use thanks to microwave-safe and heat-resistant borosilicate glass (up to 350 °C for 1 hour)**
- + **Glass container and lid dishwasher and freezer safe (down to -18 °C) – Safe freezing of food and finished dishes (vacuum reduces freezer burn)**
- + Stackable, space-saving storage
- + **Available in the following sizes:**
  - **VacuBoxxInox XL 2.6**, item 1167  
EAN 4038437011678, packing unit 4
    - 2,6 l capacity
  - **VacuBoxxInox XL 4.5**, item 1164  
EAN 4038437011647, packing unit 4
    - 4,5 l capacity

# Chapter 4

## Preparing drinks

### A World of Flavour in Every Cup and Glass

Whether aromatic coffee, soothing tea, fresh smoothies or nutrient-rich juices – with premium beverage preparation appliances, every creation is effortless. From coffee machines and kettles to slow juicers and blenders, modern technology, intuitive operation and durable materials ensure reliable results and maximum convenience. Every break becomes a true moment of indulgence – just the way you like it.

## Perfection Lies in the Details

High-quality slow juicers gently press fruit, vegetables and herbs, while powerful blenders crush ingredients evenly and modern coffee and tea machines unlock the full depth of flavour. The result: drinks that not only taste great but also retain their full nutritional value. For those who value quality in preparation, the reward is richer flavour and ultimate enjoyment – sip by sip.

### Hot water dispenser, coffee and espresso makers, milk frother & more

Electric kettles	90
Coffee machines	94
Espresso machines & coffee makers	100
Milk frothers	104
Coffee grinders	108
Slow juicers	112
Citrus juicers	116

## Turbo hot water dispenser

### Boiling water thought ahead

CASO Design turbo hot water dispensers only heat the amount of water required by the user – in just a few seconds and to the desired temperature. This saves valuable water and up to 50 % energy in comparison to conventional electric kettles, making the dispensers extra **environment friendly**.

Water temperatures from 40 to 100 °C can be selected – perfect for the preparation of all types of tea, instant coffee, baby food, hot lemon and much more besides. The continuously adjustable water flow makes filling a hot water bottle on a cold day child's play.

A water filter ensures that water is extra soft and protects the device, ensuring that you can enjoy it for many years to come.

# Boiling Water, Smarter with Turbo Hot Water Dispensers

Efficient operation and eco-friendly appliances are no longer visions of the future – they're everyday essentials. One of our most valuable resources will always be water. CASO Turbo Hot Water Dispensers combine rapid, energy-saving heating with precise portion control: only the exact amount of water you need, at the temperature you want. A single cup for green tea? No problem!

## Enjoy Responsibly

Unlike conventional kettles, these appliances heat only the water that is actually needed – precise and efficient. This saves not only time, but also energy and water. Perfect for a sustainable lifestyle and ideal for anyone who wants to consume consciously without compromising on comfort.

## Perfectly Tempered

Whether green tea, coffee or baby food – with precise temperature settings from 40 to 100 °C, every drink can be prepared at its ideal temperature. Individual adjustments ensure the best taste and maximum versatility in everyday use.

## Individual Portions for Individual Tastes

With flexible water dispensing from 100 to 400 ml in 50 ml increments, or in continuous mode, the dispenser adapts perfectly to your needs. From a small cup to a large carafe – precise dosing ensures convenience while saving water. Ideal for everyday use as well as special requirements.

## One Tank, Many Possibilities

Generous water tanks of up to 4 litres capacity allow extended use without constant refilling. Different tank sizes are available depending on the model – perfect for single households, families or offices. The transparent tank makes it easy to monitor the water level at any time.

## Heating with Quality You Can Taste

The high-quality stainless-steel heating element ensures fast and hygienic water heating. Exceptionally durable and corrosion-resistant, it keeps the taste of the water pure – free from unwanted substances. Quality you can taste and see, as confirmed by independent testing institutes such as TÜV Rheinland.

## Water filter – Natural Protection Against Limescale

An integrated water filter reliably protects the appliance from limescale build-up while also improving water quality. This protects the technology, extends the lifespan and ensures the best taste – ideal for regions with hard water. To guarantee consistently high performance, the appliance automatically reminds you when descaling is needed. The integrated cleaning mode makes maintenance easy and extends longevity even further.

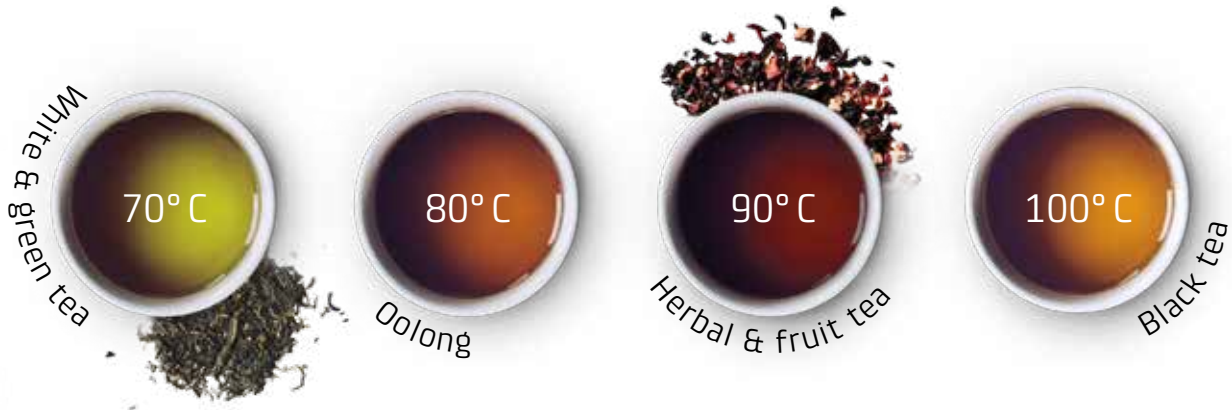

## Perfect for Baby Food

With the dedicated baby food button, water is heated precisely to 37 °C – the ideal temperature for formula milk or porridge. This saves parents time while ensuring a safe, consistent temperature. Convenient, quick and reliable.

## One-Touch Memory Function

The practical memory function stores your preferred settings for temperature and water volume. With just one touch, you can enjoy your drinks exactly the way you like them – anytime, without the need to re-adjust.

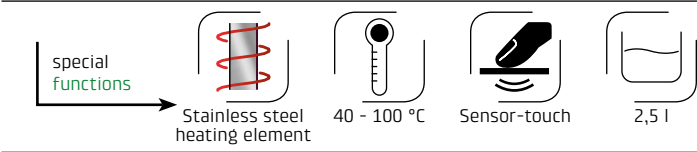

Turbo hot water dispenser  
HW 616

Item 1896

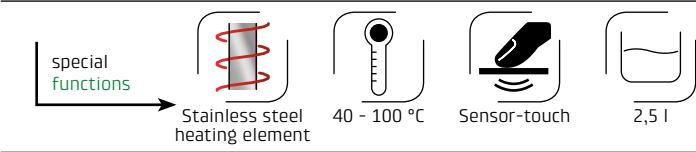

- + Perfect for the preparation of tea, instant coffee, instant noodles and baby food
- + **Time-saving: hot water in just a few seconds thanks to powerful 2600 watt**
- + **Energy-saving: 50% less than conventional electric kettles**
- + **High quality stainless steel heating element**
- + 4 pre-set quantities as required: 150 / 200 / 250 / 300 ml
- + **7 different temperature settings: 40, 50, 60, 70, 80, 90, 100 °C and without heating**
- + Removable, easy-to-fill 2.5 liter water tank
- + With boil dry and overheating protection
- + User-friendly sensor touch display
- + Integrated reminder for descaling
- + Incl. water filter for perfect water quality & longevity of the device

Turbo hot water dispenser  
HW 630

Item 1893

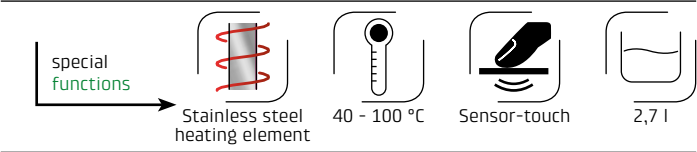

- + Perfect for the preparation of tea, instant coffee, instant noodles and baby food
- + **Time-saving: hot water in just a few seconds thanks to powerful 2600 watt**
- + **Energy-saving: 50% less than conventional electric kettles**
- + High quality stainless steel heating element
- + 7 pre-set quantities as required: 100 / 150 / 200 / 250 / 300 / 350 / 400 ml and continuous
- + **13 different temperature settings: 40 - 100 °C (in 5 °C intervals) and without heating**
- + Removable, easy-to-fill 2.5 liter water tank
- + **Direct selection button for preparation of baby food (37 °C)**
- + Integrated reminder for descaling and filter change
- + Elegant design in high-quality stainless steel
- + Incl. water filter for perfect water quality

Turbo hot water dispenser  
HW 666 Inox

Item 1876

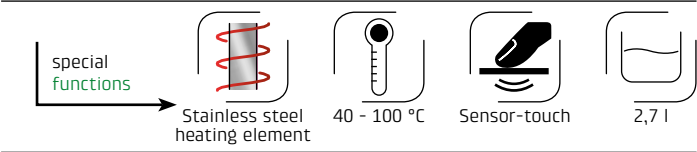

- + **Energy-saving: 50 % less than conventional electric kettles**
- + **Time-saving: hot water in just a few seconds thanks to powerful 2600 watt performance**
- + **7 different temperature settings: 40 - 100 °C (in 10 °C intervals)**
- + **Direct selection button for preparation of baby food**
- + **High quality stainless steel heating element**
- + 7 pre-set quantities as required: 100 / 150 / 200 / 250 / 300 / 350 / 400 ml and continuous
- + Front-positioned touch display - easy and intuitive to use
- + Big 2.7 liter water tank – removable, easy to fill and easy to clean
- + Integrated descaling reminder
- + Incl. water filter for perfect water quality
- + Perfect for the preparation of tea, instant coffee, instant noodles and baby food
- + Elegant design in high-quality stainless steel

Turbo hot water dispenser  
HW 770 Advanced

Item 1889

- + **Next generation hot water: Saves up to 50% energy, water and time over electric kettles** – only heats up as much water as you really need
- + **Hot water in 7 seconds**
- + Perfect for every kind of tea thanks to **individual temperature selection with 13 settings from 40 - 100 °C in 5 °C increments** – also for preparing baby food
- + **7 pre-set quantities for the desired filling volume: 100 / 150 / 200 / 250 / 300 / 350 / 400 ml and continuous dispensing**
- + **The “Memory” button saves your preferred brewing temperature and water quantity** – always immediately ready for use
- + High-quality stainless steel housing and easy-to-read display with sensor touch controls
- + **Large, removable 2.7-litre water tank – easy to fill**
- + **Incl. water filter for perfect water quality and the longevity of your device**
- + Also suitable for extra-tall (to-go) mugs
- + Integrated descaling reminder and cleaning mode

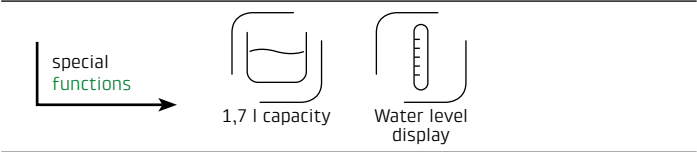

Electric kettle

Classico WK 2200

Item 1886

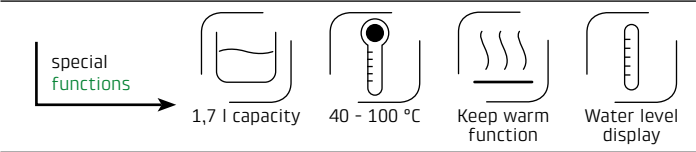

- + **Modern design kettle with a capacity of 1.7 litres for up to 7 cups at maximum fill level**
- + Powerful heating element with max. 2200 watts for fast and efficient boiling of water
- + **Housing and interior made of high-quality, tasteless, dimensionally stable and rustproof stainless steel**
- + 360° base station for easy positioning of the boiling vessel
- + Easy-to-read, external water level indicator with LED indicator light
- + Intuitive operation by on/off tilt switch
- + Easy and safe lid opening at the touch of a button – directly on the heat-insulated handle
- + **Strix technology for safe automatic switch-off and dry-running/overheating protection**
- + Practical cord storage
- + Easy cleaning thanks to removable anti-limescale filter and concealed heating element

Electric kettle

Selection WK 2200

Item 1887

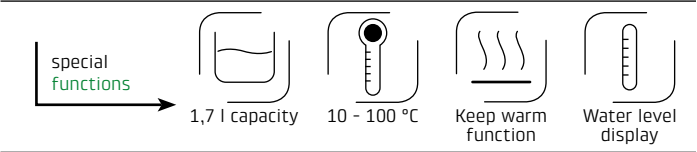

- + **Modern design kettle with a capacity of 1.7 litres for up to 7 cups at maximum fill level**
- + **Temperature setting from 40 – 100 °C (in 10 °C steps + special setting at 95 °C) for individual preparation of different types of tea, baby food, boiling water etc.**
- + Powerful heating element with max. 2200 watts for fast and efficient boiling of water
- + Practical keep-warm function with automatic switch-off
- + Large LED display with temperature display and intuitive sensor-touch operation
- + Housing and interior made of high-quality, tasteless, dimensionally stable and rustproof stainless steel
- + 360° base station for easy positioning of the boiling vessel
- + Easy-to-read, external water level indicator
- + Easy and safe lid opening at the touch of a button – directly on the heat-insulated handle
- + **Strix technology for safe automatic switch-off and dry-running/overheating protection**
- + Practical cord storage
- + Easy cleaning thanks to removable anti-limescale filter and concealed heating element

Electric kettle

WK 2200

Item 1870

- + **Powerful 2200 watt**
- + **High quality stainless steel housing and interior**
- + Capacity of 1.7 litres
- + Precise temperature control for precise control of water temperature with cooking stop function
- + **Temperature control in 10 °C increments from 10 - 100 °C**
- + Display of current water temperature – ideal for the perfect preparation of tea and baby food
- + Practical „keep warm“ function
- + Acoustic signal
- + Safe thanks to automatic power-off function
- + Lateral water level indicator
- + Cable storage under the base station
- + Anti-scale filter that can be removed for cleaning

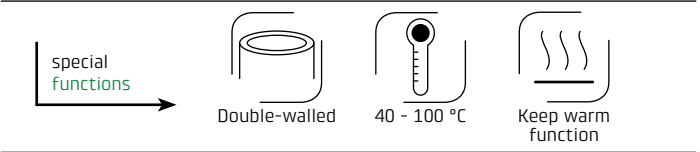

Electric kettle

WK Cool Touch

No water contact with plastics

Item 1873

- + **Double-walled cool-touch housing made of high-quality stainless steel: does not become hot on the outside**
- + Interior made of high quality stainless steel
- + **Thanks to its heat insulation it runs with an economical 1800 watts**
- + Compact size with capacity of 1.0 litres
- + Precise temperature control for precise control of water temperature with cooking stop function
- + **Temperature control in 5 °C increments from 40 - 100 °C – ideal for the perfect preparation of tea and baby food**
- + Practical heat retention function
- + Safe thanks to the automatic switch-off
- + Removable anti-limescale filter and lid for cleaning

# Coffee Machines for Perfect Moments

warmth, the invigorating effect. For many, it's more than just a ritual – it's the first step to a good day.

With CASO Design coffee machines, you brew perfect coffee at the optimal temperature – free from bitterness. Depending on your preference, models are available with a glass jug and warming plate or a thermal carafe.

## Freshly Ground with Integrated Grinder

For a full-bodied coffee experience, the integrated grinder freshly grinds the beans right before brewing. This preserves aroma and flavour to the fullest – for barista-quality coffee, made effortlessly at home.

## Water Tank up to 1.5 Litres – for 4 / 10 / 12 Cups

Whether for a quick start to the day or for coffee with guests, CASO Design coffee machines offer transparent water tanks with a capacity of up to 1.5 litres – enough for up to 12 cups. Perfect for singles, families or the office.

## Glass Jug with Warming Plate or Thermal Carafe

Choose between the classic glass jug with warming plate or the practical thermal carafe. Both options keep your coffee hot for a long time and guarantee flexible enjoyment without loss of quality.

## Intuitive Operation – Manual or Sensor-Touch

Depending on the model, operation is either manual or via modern sensor-touch control panels. CASO Design coffee machines are clearly structured and easy to use, offering maximum comfort in everyday life.

## Sustainable: Permanent Filter Included

The supplied permanent filter saves paper and is easy to clean. Enjoy not only aromatic coffee, but also a sustainable brewing process without disposable filters.

## Aroma Selection & Aroma PLUS Function

With the Aroma PLUS function or individually adjustable aroma selection, you can tailor the strength of your coffee to suit your taste. From a mild breakfast coffee to a strong brew that wakes you up – the choice is yours.

## Timer Function – Fresh Coffee When You Want It

Thanks to the integrated timer function, the brewing process starts automatically at your chosen time. Fresh coffee will be waiting for you in the morning – for a perfect and relaxed start to the day.

## 17-Hole Brewing Head for Even Extraction

The innovative 17-hole brewing head ensures the coffee grounds are evenly moistened. The result: a balanced aroma and optimal extraction of all flavours.

## Optimal Brewing Temperature: 92 - 96 °C

CASO Design coffee machines brew at the ideal temperature between 92 and 96 °C – for perfect aroma development without bitterness. That's coffee as it should taste.

## Tips for incredibly aromatic coffee

For an optimum aroma we recommend that you keep your ground coffee in an airtight container in your refrigerator.

In contrast, coffee beans are best stored in a freezer as this protects their flavour.

Fresh water is perfect for brewing coffee. If your tap water is too hard, then you can use bottled still mineral water instead.

Sprinkle a pinch of salt in your ground coffee to neutralise any bitter substances it may contain.

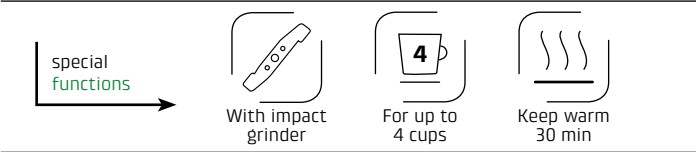

Vacuum flasks will do their best job of keeping coffee warm if you rinse them out and prewarm them with hot water before pouring in the coffee. You can also do this with cups.

## Compact coffee maker CoffeeCompact electronic

Item 1848

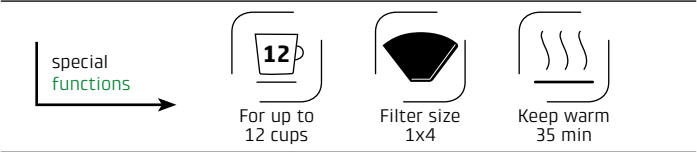

- + **Space-saving compact coffee maker with integrated grinder**
- + Powerful 600 Watt
- + Powerful impact grinder
- + **For up to 4 cups of freshly ground coffee**
- + Including Automatic 30 minute warming function
- + **Also processes pre-ground coffee powder if desired**
- + **LCD display with clock and practical timer function**
- + Two adjustable grinding levels to adjust the coffee aroma
- + No paper filter necessary, thanks to the permanent filter
- + Including a handy glass jug
- + Practical, integrated permanent filter
- + Integrated water container with easy-to-read scale
- + Automatic switch-off after 30 minutes
- + Easy cleaning as a result of a completely removable brewing unit and grinder
- + Incl. coffee scoop

## Coffee maker Selection C 12

Item 1858

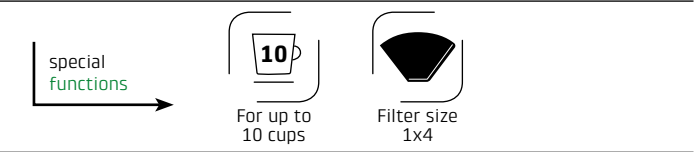

- + Modern coffee machine design with stainless steel body
- + **1.5 litre water tank with practical water level display**
- + **With large glass pot for up to 12 cups of coffee (1,5 l)**
- + Optimum brewing temperature of 92 - 96 °C
- + Easy handling due to touch control panel and rotary knob
- + Large LED clock display
- + **17-hole brewing head for optimal and uniform wetting of the coffee powder**
- + Time-delayed brewing thanks to the integrated timer function
- + **Aroma-PLUS function**
- + Ca. 40 % smaller footprint\*
- + Drip-stop prevents subsequent dripping
- + **Long-lasting coffee enjoyment thanks to the heating plate (35 min)**
- + Removable filter basket for easy cleaning
- + Including permanent filter for environmentally-friendly, flavour-preserving brewing and a coffee scoop to measure the right amount of coffee

## Coffee maker Selection C 10 Thermo

Item 1874

- + Modern coffee machine design with stainless steel body
- + **1.2 Litre water tank with practical water level display**
- + **With insulated jug for up to 10 cups of coffee (1,2 l)**
- + Optimum brewing temperature of 92 - 96 °C
- + Easy handling due to touch control panel and rotary knob
- + Large LED clock display
- + **17-hole brewing head for optimal and uniform wetting of the coffee powder**
- + Time-delayed brewing thanks to the integrated timer function
- + **Aroma-PLUS function**
- + Ca. 40 % smaller footprint\*
- + Drip-stop prevents subsequent dripping
- + Removable filter basket for easy cleaning
- + Including permanent filter for environmentally-friendly, flavour-preserving brewing and a coffee scoop to measure the right amount of coffee

# Espresso Machines for Barista Quality with Crema Guarantee

Nothing beats a strong, aromatic espresso – after a meal, during exam season or simply in between. Prefer something smoother? With ease, these caffeine boosters transform into a gentle cappuccino or latte macchiato. CASO Design espresso machines with milk tank or steam wand for frothing leave no coffee wish unfulfilled, impressing with a wide choice of beverages, premium materials and aromatic specialities made to perfection.

## Powerful Ulka Pump with 19–20 Bar Pressure

The high-performance Ulka pump delivers up to 20 bar of pressure for optimal espresso extraction. This high pressure brings out the finest aromas and ensures a perfect crema – ideal for espresso lovers who value quality and taste.

## Portafilters in Stainless Steel or Aluminium

Depending on the model, the portafilters are made of robust stainless steel or lightweight aluminium. Both versions guarantee even wetting of the coffee grounds, high stability and professional results with long-lasting quality.

## Pre-Infusion for Full Aroma

The integrated pre-infusion function moistens the coffee grounds before the actual brewing process begins. This allows the aromas to swell and fully develop, creating an intense, well-balanced flavour in every cup.

## Manometer and Precise Temperature Display

An integrated manometer shows the brewing pressure in real time, while the temperature display provides full control during preparation. Every espresso succeeds to perfection – ideal for discerning coffee connoisseurs.

## Steam Wand or Milk System – Your Choice

For milk-based drinks such as cappuccino or latte macchiato, the machines offer either a classic stainless-steel steam wand or an integrated milk frothing system with a 700 ml milk container. This ensures fine-pored milk foam and a wide variety of barista-quality coffee creations.

## Cup Warming Plate & One-/Two-Cup Selection

The integrated cup warming plate keeps cups preheated – a crucial factor for temperature stability and espresso flavour. This way, coffee stays hot and aromatic for longer. With the practical one-/two-cup selection, you can prepare either a single or a double espresso at the touch of a button. Quantities are individually adjustable for solo or double enjoyment.

## Water Tank up to 1.5 Litres

Removable water tanks hold up to 1.5 litres, depending on the model, and are ideal for multiple servings without constant refilling. The transparent material makes it easy to check the water level at any time.

## Comprehensive Accessories

Every model comes with a variety of filter inserts, a portafilter, a heavy tamper and a measuring spoon. The EspressoGourmet model also includes a milk jug. Selected models additionally feature double-walled filters for guaranteed crema.

## Thermoblock System: Single or Dual Circuit

Depending on the model, the machines are equipped with either a single- or dual-circuit thermoblock system. Dual-circuit machines allow brewing and milk frothing simultaneously – ideal for quick preparation and professional workflows.

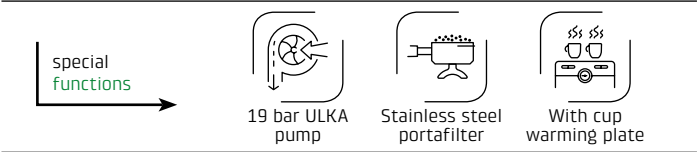

Espresso maker

EspressoGourmet

Item 1820

- + Stainless steel housing with non-slip feet
- + Powerful 19 bar ULKA-pump
- + **High-quality stainless steel portafilter with black handle**
- + **Practical manometer shows brewing pressure**
- + 4 user-friendly soft touch buttons with white lights
- + Automatic pre-brew function for even infusion
- + Stainless steel steam wand for preparation of creamy frothed milk and pre-warming of cups
- + Integrated cup warming tray for pre-warming of cups
- + Removable transparent water tank (1.5 l)
- + Removable stainless steel drip tray with integrated float – for easy cleaning
- + Wide range of accessories:
  - 3 stainless steel filter inserts for 1 or 2 cups and for ESE / coffee pads
  - Tamper with removable black wooden handle
  - Stainless steel measuring spoon
  - Stainless steel milk pitcher (with scale up to 330 ml / 11 oz)

High-quality, heavy-duty stainless steel portafilter for perfect crema, temperature and aroma. Includes a 19-bar ULKA pump and complete barista accessories.

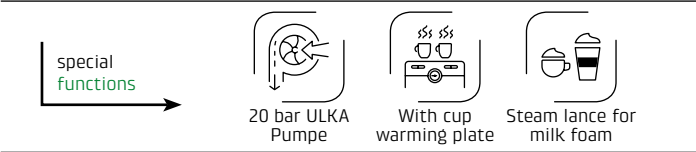

Espresso maker

EspressoGourmet Crema

Item 1824

- + **Barista quality and flavour in the smallest of spaces:** compact, stainless steel portafilter machine for perfect, full-bodied espresso and many coffee specialties
- + **Powerful 20 bar ULKA pump**
- + Three individual temperature settings: **Low** approx. 92 °C, **Middle** approx. 94 °C, **High** approx. 96 °C
- + **Professional steam lance**
  - **Fast heat-up time – ready to go in 12 seconds**
  - **Produces dry steam for particularly creamy milk foam** for latte macchiato, cappuccino, etc. (also for plant-based alternatives)
- + Large LCD display
- + Integrated cup warming plate
- + One or two cups can be selected at the touch of a button and the filling quantity can be individually adjusted
- + For cups and glasses up to 13.5 cm high
- + Removable, transparent water tank (1.3 l)
- + With practical cleaning and descaling function
- + **Versatile features:**
  - Heavy portafilter
  - Extra-heavy metal tamper (283 g)
  - Two single-walled professional filters for 1 or 2 cups
  - Two double-walled filter inserts for 1 or 2 cups for a guaranteed good crema
  - Double-walled ESE pod filter insert
  - Coffee spoon

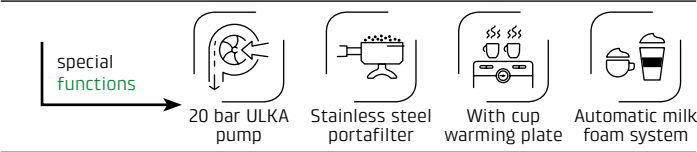

Espresso maker

EspressoGourmet Latte

Item 1821

- + **Stainless steel portafilter espresso machine with integrated milk container for perfect, full-bodied espresso, cappuccino, latte macchiato, café crema and other espresso-based coffee specialties**
- + Powerful, 20 bar ULKA pump
- + **Individual coffee dispensing at the touch of a multifunctional button – for 1 & 2 cups or larger glasses (up to max. 13.5 cm height)**
- + **The automatic one-touch milk frothing system delivers creamy latte macchiato or similar (for all milk types and non-dairy alternatives)**
- + High-quality, dual-circuit thermoblock system with pre-brewing function
- + Integrated cup warming tray
- + User-friendly LCD control panel
- + **With practical cleaning and descaling function**
- + Removable, transparent water tank (1.3 l) and milk container (700 ml)
- + Comes with:
  - Stainless steel spoon & sturdy metal tamper
  - Two double-walled and two single-walled stainless steel portafilter baskets for 1 & 2 cups
  - ESE pad filter basket
  - Stainless steel-portafilter

Practical automatic one-touch milk foam system for creamy coffee specialties. With 20 bar ULKA pump and complete barista accessories.

Coffee grinder

BaristaCrema

Item 1833

- + **Grinder settings from fine to coarse – for the perfect enjoyment of espresso and coffee**
- + **Slow, aroma-friendly grinding through a professional disc grinder**
- + Removable collection container for up to 140 g of coffee powder (up to 12 cups of coffee)
- + Removable bean container with a maximum filling capacity of up to 190 g
- + Powerful 150 watt motor
- + Fast and simple cleaning due to the removable individual parts
- + **High quality stainless steel front**
- + Small and compact
- + Secure positioning due to non-slip rubber feet
- + Incl. cleaning brush

Coffee grinder with portafilter holder

BaristaChef Inox

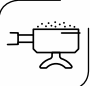

special functions

With conical grinder

Up to 12 cups of coffee powder

Porterfilter holder

Anti-static technology

- + Slim and compact coffee grinder with stainless steel housing and “anti-fingerprint” surface
- + **With modular portafilter holder e.g. for espresso and portafilter machines**
- + **High-quality and durable stainless steel cone grinder**
- + Flavour-preserving grinding speed of 450 rpm for an even grinding pattern and reduced heat development
- + **48 precise grinder settings for every preparation method and coffee speciality from extra-fine espresso powder to coarser French Press powder**
- + Removable bean container with 250 g capacity
- + **Individual dosing via cup quantities (up to 12 cups) or timer (up to 40 sec) and manual for portafilter**
- + Flavour-sealed collection container for 100 g ground coffee with innovative anti-static technology without the coffee powder sticking to the surfaces
- + Powerful 150 watt DC motor
- + Grinder, bean container and drip tray are easy to remove for easy cleaning

# Gentle Juicing with Slow Juicers

There's no gentler way to juice fruit, vegetables and herbs than slow juicing. At a low rotation speed, the produce is pressed by an auger and cold-pressed for maximum juice yield. Nutrients and flavours are optimally preserved – delivering an explosion of taste on the tongue. And the versatile juices are also true health boosters and fitness drinks.

## Gentle Extraction at Low Speeds

CASO Design slow juicers operate at especially low speeds (40–60 rpm), preventing heat build-up. This technology preserves valuable vitamins, enzymes and phytonutrients – for natural flavour and maximum nutrient density. Slow pressing also reduces oxidation, resulting in clear, aromatic juices of the highest quality. Ideal for conscious nutrition and a daily vitamin kick.

## Up to 30% Higher Juice Yield

Thanks to slow juice technology, CASO Design juicers achieve up to 30% more juice yield compared to conventional centrifugal juicers. The efficient auger extracts more liquid from fruit and vegetables – even from fibrous ingredients. This saves resources, increases efficiency and delivers nutrient-rich juices.

## Convenient Preparation – No Pre-Cutting Required

With a generous feed opening of up to 130 mm in diameter, whole fruits such as apples or pears can be processed directly – no pre-cutting needed. This saves time and makes juicing especially convenient. Perfect for quick, healthy enjoyment in everyday life.

## Powerful yet Quiet – Perfect at Any Time of Day

The powerful motors with up to 300 watts operate reliably while remaining pleasantly quiet. They process both hard and soft ingredients with ease, ensuring even juice extraction. Low noise levels make CASO Design slow juicers the perfect companion in any kitchen – even early in the morning.

## Automatic Shut-Off for Added Safety

The integrated safety-stop function ensures maximum security: as soon as the lid is opened, the appliance stops automatically. This guarantees safe handling – especially important for family households or frequent use.

## A True All-Rounder

CASO Design slow juicers are incredibly versatile – even for preparing plant-based drinks such as almond milk. Gentle pressing preserves both flavour and nutrients. Simply soak the almonds, add them in and enjoy – all without additives.

## Clean Separation for Versatile Reuse

Two separate canisters, each with a capacity of up to 800 ml, ensure a clean separation of juice and pulp. The juice flows directly into the glass or collection container, while the pulp can be reused in a variety of ways – for soups, muesli or baking.

Item 3512

Slow Juicer  
JuiceFit Pro

Item 3511

special functions

  
Slow Juice technology

  
Whole fruits up to 105 mm Ø

  
Gentle 50-70 rpm

- + Compact matt black design
- + **Fill'n Juice – large 105 mm Ø filling opening for large / whole pieces of fruit and vegetables, no pre-cutting**
- + Gentle cold juicing at a low speed of 50 - 70 rpm preserves natural taste plus valuable nutrients and vitamins
- + **Up to 30 % more juice compared to conventional centrifugal juicers** – for tasty, healthy juices from fruit, vegetables and herbs
- + Also suitable for making home-made almond milk
- + Included in the scope of delivery: Two large containers for juice and pulp, both with 800 ml capacity & cleaning brush
- + Up to 20 minutes of continuous operation possible

special functions

  
Slow Juice technology

  
Whole fruits up to 130 mm Ø

  
Gentle 40 rpm

- + Slow juicer with high quality matt black housing
- + **Gentle juicing thanks to low speed (40 rpm)** – slow rotation of the juicing auger means less heat build-up, so preserves valuable nutrients and vitamins
- + **Up to 30 % more juice compared to conventional juicers** – for tasty, healthy juices with the natural taste of fruit, vegetables and herbs
- + **Fill'n'juice - Large 130 mm Ø filling opening for whole fruits, no pre-cutting**
- + **Overflow stop can be closed for automatic mix function for juice mixes**
- + Ready to use quickly thanks to simple assembly with a small number of components
- + Powerful and extra quiet 250 watt AC motor for hard and soft fruit
- + **With 'safety stop' function** - Rotation stops immediately when the lid is opened
- + Two large containers for juice and pulp, both 1 l capacity
- + **Use of juicing pulp** - juicing pulp can be used as an ingredient in sauces, muesli and much more besides
- + Simple, fast cleaning thanks to cleaning brush
- + Space-saving storage thanks to removable components
- + Non-slip feet ensure stability
- + Up to 20 minutes of continuous operation possible

JuiceFit Pro

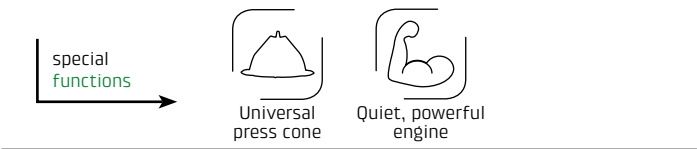

Citrus juicer

CP 200

Item 3540

- + Powerful electric designer citrus juicer with stainless steel housing
- + **Universal press cone for all common citrus fruits from lime to grapefruit**
- + Easy handling thanks to lever press arm
- + High-quality stainless steel strainer insert
- + **Soft-touch handle with convenient automatic start**
- + Very easy to clean, individual parts removable
- + Extra quiet engine
- + Suction feet for a very secure stand
- + Juice stop (drip stop)

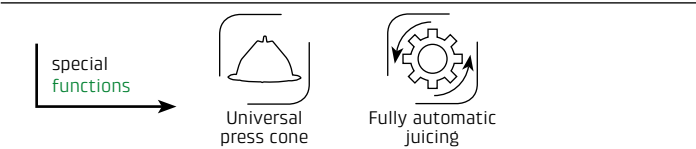

Fully automatic citrus juicer

CP 400 Lift

Item 3562

- + Compact, powerful electric citrus juicer
- + **Universal pressing cone** for all common citrus fruits from limes to grapefruits
- + **Clean, hygienic handling thanks to automatic startup** – Pressing process combines vertical and rotating movement of the pressing cone
- + Efficient pressing process delivers optimum amount of juice
- + Container with practical **overflow stop** – for direct filling into a glass
- + Very easy to clean, individual parts can be removed and are dishwasher safe

## Chapter 5 Chopping

### Everything Under Control – Grinding Made Easy

CASO Design coffee machines, hot water dispensers, kettles and milk frothers are all about sensuality and enjoyment: savour the aroma of freshly ground coffee beans, create fluffy milk foam, prepare wonderful tea variations – and enjoy the moment. Coffee grinders ensure the perfect grind for your favourite coffee, gently and precisely.

And for that extra dose of vitamins to support health and vitality, CASO Design slow juicers and citrus presses deliver fresh goodness straight into your glass.

## Save Time with Power – Chopping at the Touch of a Button

Anyone who wants to cook efficiently relies on appliances that lighten the workload. Powerful choppers such as multi-choppers or meat grinders take care of cutting, chopping and puréeing in seconds – faster and cleaner than by hand. Especially in the rush of everyday life, this time-saving is worth its weight in gold. Thanks to high motor power and sharp blades, there's more time left for what really matters: enjoyment. Here, quality means not only better results, but also valuable minutes you can spend elsewhere.

Multi-chopper

UZ 200

Item 1749

- + Electric multi-chopper with two attachments made of high quality stainless steel
- + **Container with 2-bladed stainless steel fly cutter:** Perfect as a grinder for coffee. Dried herbs / spices
- + **Container with 4-bladed stainless steel cutter:** Perfect as a chopper and grinder for nuts, onions, vegetables, etc.
- + Intuitive pulse switch with transparent cover
- + Container, fly cutter and housing made of durable stainless steel
- + With practical lid for the grinding containers
- + Powerful 2000 watts motor
- + High level of safety: It can only be operated when the lid is attached

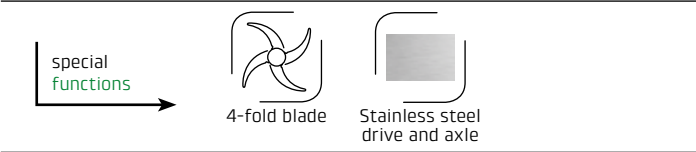

Multi-chopper

UZ 400

Item 1748

- + **Very versatile: Slices and chops up fruits, vegetables, onions, garlic, meat, fish, nuts, etc. in a matter of seconds**
- + **2 speed settings**
- + Robust glass container with a capacity of 1.2 liter
- + **4 high quality blades made of stainless steel**
- + Practical protective caps for the blades to ensure safe storage
- + Easy operation by the press of a button
- + High quality stainless steel applications
- + Secure stand thanks to removable rubber base ring
- + Can be completely dismantled into individual parts for easy cleaning

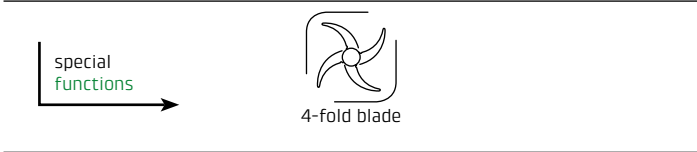

Multi-chopper

Chop & Go

Item 1747

- + **Cordless multi-chopper ready for use anywhere**
- + Long-life lithium-ion battery with up to 60 min. running time (varies depending on filling quantity and speed setting)
- + Integrated battery status display via white LED light with charging indicator
- + **Knife unit with 4 stainless steel blades for chopping and pureeing vegetables, fruit, meat, fish, nuts, etc.**
- + **Emulsifying disc for whipping and blending whipped cream, dips, dressings and much more**
- + Easy to use thanks to 2 speed settings (up to 2,300 rpm.)
- + **Large 1.0 l glass container with non-slip mat and storage lid – Chop & Go!**
- + Incl. spatula and charging cable (USB-C)
- + Easy cleaning thanks to dishwasher-safe accessories

Mincer

FW 2000

Item 2870

- + High-quality cast aluminum housing
- + **Powerful engine (800 W rated output; 2000 W max. performance) for fast processing of up to 2.5 kg of foods / min**
- + Easily chops raw and cooked meat, fish and vegetables
- + **High-quality, long-lasting stainless steel blade**
- + **Versatile application possibilities thanks to extensive accessories:**
  - 3 cutting plates from coarse to fine
  - cookie attachment with 4 shapes
  - sausage filler
  - pusher
  - collection tray
- + **Large aluminium filling tray, can also be used to store accessories**
- + Including collection tray which can be used as a cover for the filling tray
- + Housing in elegant black design
- + Simple assembly and removal of all parts
- + Convenient operation with 2 speed levels
- + Reverse function gently removes blockages and remains

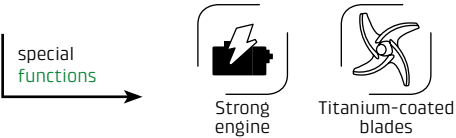

Mincer

FW 2500 Black

Item 2874

- + **Powerful motor (400 W nominal power; 2500 W max. power) for fast processing of up to 2.5 kg food/min**
- + **With long-life direct current (DC) motor – quieter in comparison to compared to AC motors**
- + Easily minces raw and cooked meat, fish, vegetables, tofu, etc.
- + **Numerous preparation options**, e.g. (fish) meatballs, burger patties, tofu sausage, vegetable patties, shortbread and much more
- + With high-quality, long-lasting titanium-coated blade
- + Convenient operation with 2 speed levels
- + Strong suction feet for a secure stand
- + **Burger press for 2 patty sizes and for stuffed patties**
- + Easy assembly and disassembly of all parts – easy cleaning
- + Practical return function gently removes jams and remnants
- + Durable metal gear and metal gear shaft
- + Space-saving storage of accessories in the filling tray
  - 3 stainless steel cutting plates (3 mm, 5 mm and 8 mm)
  - Sausage filler
  - Cookie attachment with 4 moulds
  - Stuffer

## Mobile kitchen technology

### Cordless Freedom, Maximum Flexibility

Cook whenever and wherever you want – without cables, without limits. These mobile appliances can be used exactly where they're needed: on the worktop, at the table or on the go. Thanks to powerful rechargeable batteries, they offer complete freedom of movement and are always ready to use. Vacuum sealing, blending or chopping becomes simple and precise – no socket required. Especially practical: functions such as vacuum sealing start conveniently at the touch of a button. Modern kitchen work becomes mobile, intuitive and efficient – giving you maximum freedom for creative ideas.

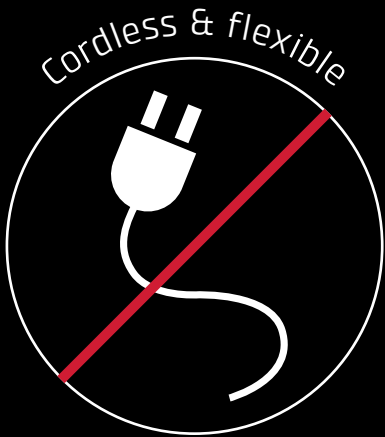

### Compact, Mobile and Powerful

Strong technology in a compact format. These mobile kitchen appliances are handy, always within reach and deliver full performance – completely cordless. Thoughtful functions, simple operation and modern battery technology make them flexible everyday helpers. From creamy soups with the hand blender, to finely chopped vegetables in the chopper, to fresh food vacuum-sealed at the touch of a button – everything is quick and reliable. Always ready for use, these appliances deliver full power with minimal space requirements. Perfect for anyone who values mobility without compromising on comfort.

### Cordless appliances – Click Series, handheld vacuum sealers and multi chopper

Click-Series	134
Hand vacuum sealers	138
Multi chopper	140

## The New Freedom in the Kitchen: The Cordless Click-Series

The Click & Mix brings ultimate joy to food preparation. All appliances feature modern design, maximum flexibility and impressive performance. Whether mixing, kneading, whipping, blending or folding – this elegant series quickly becomes your indispensable companion for doughs, cream, sauces, smoothies and much more.

The highlight of the CASO Click-Series is its magnetic, interchangeable battery system, which delivers maximum freedom in the kitchen. The powerful lithium-ion battery (11.1V, 2,000mAh) is not only removable but also compatible with all appliances in the CASO Click-Series.

### One Battery, Endless Possibilities

The CASO Click-Series is equipped with a magnetic, interchangeable battery system. The battery can be swapped between the appliances, and both spare batteries and a fast-charging station are available separately. With a runtime of up to 30 minutes, you can prepare all your creations with ease.

### Freedom in the Kitchen – and Beyond

Thanks to cordless operation, these appliances can be used virtually anywhere. That means more freedom in the kitchen without cables, and even use on the terrace for barbecues, in outdoor kitchens, while camping or in holiday homes.

### Powerful Appliances for Perfect Results

The Click-Series includes hand blenders, stand blenders and hand mixers. Strong performance ensures fine dips, delicious smoothies and perfectly mixed cake batter. Speed settings can be adjusted to your needs, while operation remains simple and intuitive.

### Premium Materials

The durability of an appliance largely depends on the quality of its materials. Stainless steel, Tritan and robust blade units deliver the best culinary results and lasting performance. Removable parts are also dishwasher-safe for easy cleaning.

- + Handy cordless hand blender – can be used to puree, chop, whisk, froth milk or for emulsifying
- + Smooth results thanks to infinitely variable speed control from 6000 - 13000 RPM using variable speed trigger switch
- + **Rechargeable battery system can swapped over magnetically, powerful and easy to use anywhere – can be combined with all cordless kitchen devices in the “CASO Click-Series”**
- + All attachments can be changed over in seconds
- + Long 21 cm stainless steel blending element with robust 4-blade unit
- + Battery run time of up to 30 minutes\* – for the smallest and largest kitchen creations
- + Wide range of accessories:
  - Blender, universal chopper (500 ml) with 2-fold sickle blade, whisk, milk frother, mixing container with measuring scale (700 ml) and pan protection cover
  - Removable lithium-ion rechargeable battery (2000 mAh, 11.1V) with LED status indicator incl. charging cable
- + All attachments are dishwasher-proof

- + Cordless, powerful 240 W blender for smoothies, shakes and more – 14.000 RPM
- + **The 4-blade stainless steel system is perfect for preparing dips, shakes, pesto, sauces, smoothies, beverages and much more besides.**
- + Serrated blade unit – for cutting robust and fibrous foods
- + **Rechargeable battery system can swapped over magnetically, powerful and easy to use anywhere – can be combined with all cordless kitchen devices in the “CASO Click-Series”**
- + Battery run time of up to 30 minutes\* – for the smallest and largest kitchen creations
- + BPA-free 500ml mixing and drinking bottle with to-go lid made of shatterproof Tritan – for travel, work or your favourite sports
- + Compact size means the device requires minimal storage space
- + Incl. removable lithium-ion rechargeable battery (2.000 mAh, 11.1V) with LED status indicator and charging cable

- + Cordless hand mixer in a modern design
- + Lightweight and powerful – for mixing, kneading and whipping dough, cream, sauce and much more besides
- + **Rechargeable battery system can swapped over magnetically, powerful and easy to use anywhere – can be combined with all cordless kitchen devices in the “CASO Click Series”**
- + **The digital control panel shows the 8 powerful speed settings (levels from 600 - 1.200 rpm)**
- + Battery run time of up to 30 minutes\* – for the smallest and largest kitchen creations
- + 4 intuitive operating buttons and practical eject button for the beaters
- + Dishwasher-proof attachments – incl. 2x dough hook and 2x whisk
- + Incl. removable lithium-ion rechargeable battery (2.000 mAh, 11.1V) with LED status indicator and charging cable

#### Click & Power

- + Single battery for the cordless kitchen appliances of the “CASO Click-Series”
- + **Magnetic battery system – Very easy attachment and removal from kitchen appliances**
- + Clear battery status display with 5 LED-light levels (20 - 100%)
- + Full charging time is approximately 3 hours with a USB-C cable (charging time in a separately available fast charging station is about 50 minutes)
- + Includes USB-C cable

#### Click & Charge

- + 50W fast charging station including a battery for wireless kitchen appliances – for faster charging and more flexibility thanks to the additional battery
- + Charging time:
  - 35 minutes: 80%
  - 70 minutes: 100%
- + Including power supply

\* Fully charged battery. Battery run time depends on the type and quantity of ingredients which are being processed. Battery charging time using a USB C cable: approx. 3h / with quick charging station approx. 70 min

Hand vacuum sealer set

**Vacu OneTouch Eco-Set**

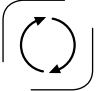

Item 1169

special functions

Cordless

Reusable accessories

- + Pump capacity: 3 liters / minute at -0.4 bar pressure

+ **Cordless one-hand operation**

+ **Long-life lithium-ion battery for up to 150 minutes runtime – vacuum even while charging**

+ Convenient LED display - white when battery is full and red when battery is empty battery

+ **Auto stop when vacuum is reached**

+ Safety stop after 2 minutes if the device is switched on unintentionally

+ Easy cleaning thanks to removable vacuum seal

+ **Stackable glass vacuum container set with plastic lids for space-saving storage**
- + **Particularly suitable for items which are pressuresensitive and for liquids**

+ Date display (day and month) integrated into the lid

+ Versatile use thanks to microwavable, heat-resistant (up to 350 °C) glass bodies

+ Glass bodies and lids can be used in the freezer (up to -18 °C) and are dishwasher-proof

+ Inkl. 10 ZIP-Bags (5 pieces 20x23 cm, 3 pieces 26x23 cm, 2 pieces 26x35 cm), 3 vacuum containers, 2 ZIP lockers, USB-C charging cable and CASO food manager stickers

Professional hand vacuum sealer set

**Vacu OneTouch Pro Set**

Freshness in just a few seconds

Reusable accessories

- + **Cordless professional vacuum sealer – simple, fast, everywhere**

+ **Keep food fresh up to 8-times longer in no time at all**

+ **Fully automatic vacuum sealing in seconds**

+ Powerful pump capacity at 12 litres/minute

+ Long-life lithium-ion battery for up to 85 min runtime

+ Incl. charging station (USB-A and USB-C connection) – always a full battery, always at hand
- + **Incl. extensive accessories:**

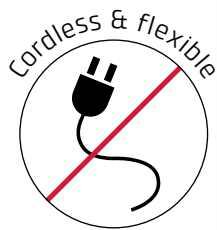

+ 4 VacuBoxxes made of glass, stackable (2600 ml, 1500 ml, 800 ml, 500 ml)

+ 15 Vacu ZIP-Bags in different sizes

+ 3x “WineLock“, the aroma seal for your good wines and oils

Item 1747

- + **Cordless multi-chopper ready for use anywhere**
- + Long-life lithium-ion battery with up to 60 min. running time (varies depending on filling quantity and speed setting)
- + Integrated battery status display via white LED light with charging indicator
- + **Knife unit with 4 stainless steel blades for chopping and pureeing vegetables, fruit, meat, fish, nuts, etc.**
- + **Emulsifying disc for whipping and blending whipped cream, dips, dressings and much more**
- + Easy to use thanks to 2 speed settings (up to 2,300 rpm.)
- + **Large 1.0 l glass container with non-slip mat and storage lid – Chop & Go!**
- + Incl. spatula and charging cable (USB-C)
- + Easy cleaning thanks to dishwasher-safe accessories

# Chapter 7

## Weighing

### Powered by Motion – Weighing Without Batteries

Discover a new level of weighing comfort with our innovative kitchen and body scales – no electricity, no batteries required. Thanks to advanced technology, the necessary energy is generated purely by your movement: a quick twist of the energy dial, a press of a button or simply stepping onto the scale is enough. Whether in the kitchen or the bathroom, these scales are always ready for use – completely independent of batteries or sockets. They help protect the environment, save on follow-up costs and still deliver maximum precision and ease of use. Perfect for anyone who values sustainability, reliable technology and effortless handling.

### Precision for Kitchen & Body

Precision means control – in the kitchen as well as in everyday life. Our high-quality scales help you measure even the finest amounts with accuracy and track changes with confidence. Reliable results create clarity and trust – in some models completely battery-free, powered solely by your own movement.

### Kitchen and body scales

Kitchen scales	144
Body scales	152

## Kitchen Scales: Essential for Every Gourmet

A kitchen scale is indispensable in any kitchen. Whether for cake batter, pizza dough or other ingredients, precise weighing is key to accuracy. Alongside classic battery-operated scales, CASO Design also offers eco-friendly, sustainable models powered by kinetic energy – completely battery-free and fuelled by movement.

### Precise Variety: Weighing Ranges up to 20 kg

From delicate ingredients to large quantities – CASO scales offer weighing ranges from 500 g up to 20 kg, depending on the model. Perfect for fine patisserie work as well as for weighing larger portions for storage or preserving.

### Fine Increments: From 0.1 g to 5 g Steps

Different graduations ensure maximum accuracy: from 0.1 g in precision scales to 5 g in high-capacity models. Every ingredient is measured exactly for perfect results in cooking and baking.

### Add-Weigh Function (Tare)

The practical tare function allows several ingredients to be weighed in sequence without changing the container. Simply reset to zero and continue – quick, clean and efficient.

### Precision Scale for the Finest Accuracy

The precision scale measures up to 500 g or 1 kg in exact 0.1 g steps. Ideal for spices, baking ingredients or diet-specific cooking – anywhere where every gram counts.

### 2-in-1 Function: Kitchen and Precision Scale Combined

One model combines both a kitchen scale and a precision scale in a single device. This allows you to measure both large and very small quantities with just one scale – space-saving and versatile.

### Sustainable: Battery Power or Kinetic Energy

In addition to classic battery-operated models, CASO also offers scales powered by kinetic energy – completely battery-free. A quick twist or button press generates the required energy. Not only eco-friendly, but also highly practical.

### Clear Digital Display

The easy-to-read digital display shows weight precisely and clearly, ensuring convenient use in any kitchen situation.

### Flexible Unit Selection

CASO scales offer a variety of measurement units: grams, kilograms, ounces, pounds, as well as millilitres and fluid ounces. This way, both dry and liquid ingredients can be measured with precision – exactly as recipes or preferences require.

Item 3265

special functions

5kg

Weighing scale up to 5 kg

Sensor: 1,0 g

Batteryless

- + **The designer kitchen scales is always ready for action thanks to kinetic energy:** Turning the energy wheel produces energy similar to a dynamo for one minute. The kinetic energy (energy of movement) is converted into electrical energy and thus generates electricity to put the balance into operation.
- + **Maximum efficiency, minimum environmental impact (no use of batteries), therefore environmentally friendly and sustainable**
- + Weighing scale up to max. 5 kg
- + Wählbare Einheiten: g, kg, lb: oz, Wasser in ml, Milch in ml
- + **Practical tare function: Easily add additional ingredients**
- + Accurate weighing sensor in 1g increments
- + High quality brushed stainless steel surface
- + Digital display incl. a control display of the generated energy
- + Very flat design
- + Extremely long life
- + Automatic switch-off

Motion creates energy

All of the kinetic scales shown on this double page work without batteries. Turning the swivel arm or energy wheel produces energy for a short period of time. This makes batteries superfluous and these great kitchen aids sustainable and environment friendly.

Environmentally friendly thanks to battery-free use

BODY ENERGY TECHNOLOGY: ENERGY WITHOUT BATTERY

Designer bathroom weighing scales with Body Energy technology are powered by kinetic energy, meaning that they are always ready to use. Energy is generated for one minute by pressing the power button.

**Kinetic energy**  
Kinetic energy (created by movement) is converted into electrical energy, thus generating electricity to power the scales.

Your benefit: The scales are almost never “dead”. There is no battery with toxic heavy metals to dispose of. The German Federal Environmental Agency recommends, “Avoid batteries wherever possible. Buy mains-operated or battery-free appliances.”\*

Environmentally friendly thanks to battery-free use

## Cooling & dry aging

### It's All About the Temperature

Whether it's a full-bodied red with an aromatic bouquet, a crisp white wine, a perfectly chilled cellar beer or refreshing summer cocktails – with CASO Design wine and barbecue coolers, you'll always enjoy them at the ideal temperature. Ice cube and ice cream makers provide that extra dose of refreshment. And for those who love tender, flavourful meat, the CASO Design Dry Aged Cooler is a true highlight – because you can't get more out of meat than this!

### Perfectly Chilled, Anytime

Whether freestanding, built-in or under-counter – the premium wine coolers from CASO Design blend seamlessly into any kitchen or living space, combining functionality with comfort. For perfectly chilled drinks at all times, the Barbecue Coolers are ideal for covered terraces and outdoor kitchens, while an exclusive lounge table with soundbar and integrated cooling compartments adds a stylish touch.

For true culinary indulgence, the premium Dry Aged Coolers create the perfect conditions for traditional dry-aging – you can't get more out of meat than this. And for quick refreshment in between, the ice cream makers prepare delicious treats in no time.

# Exquisite Wines, Exquisitely Cooled

At a romantic dinner with your partner or a convivial evening with friends, drinks should be the last thing you worry about. Always kept at the ideal temperature, the single-bottle coolers from CASO Design add a special touch of indulgence to any occasion.

As the perfect complement to a wine cooler cabinet, these elegant companions round off the love of fine wines in the smartest way. Right at the table and within easy reach, they combine sophisticated design with functionality. And for even more mobility, the battery-powered model is ideal – perfect for the garden, a picnic or holidays.

## Designed for Portable Indulgence

CASO Design wine coolers can be conveniently placed directly on the table. For extra freedom, there's even a cordless version with a runtime of up to 120 minutes. This way, your favourite wines remain perfectly tempered – wherever you are.

## The Perfect Temperature

No matter which wine you enjoy, your wine cooler keeps a pre-chilled bottle between 5–18 °C. Sparkling wine, champagne or water also remain at the perfect drinking temperature. An LED display shows the selected temperature at a glance.

## Room for Flavour

These clever bottle coolers fit any bottle up to 90 mm in diameter, making them attractive not only for white and red wine but also for many other drinks.

## A Silent Companion

The built-in Peltier technology ensures pleasantly quiet operation, so you can enjoy conversations with your loved ones without distraction – while your wine stays at the perfect temperature.

## Enjoy wine with your meal

### Stable temperatures thanks to CASO Design

For many connoisseurs, gourmet cuisine must be accompanied by a great white or red wine, depending on what they are eating.

Without a doubt, the perfect wine rounds off a good meal. Achieving the ideal drinking temperature is an essential element of this. Wine coolers are a great way to keep wine that has been stored in a CASO Design wine refrigerator at a desired temperature ranging from 5 to 18°C when served at the table.

Other drinks such as mineral water, lemonade or sparkling wine can also be chilled and kept cool.

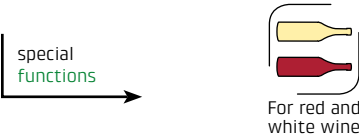

## Wine cooler for 1 bottle

### VinoCase Black

Item 615

- + Modern table-top wine cooler, ideal to maintain the temperature of an already chilled bottle of wine, champagne, sparkling wine, etc.
- + **Suitable for all bottles with a diameter up to 9 cm Ø**
- + High-quality, elegant matt black housing – enables you to perfectly stage your favourite wine on any table/ sideboard
- + **Temperature electronically adjustable from 5 to 18 °C in 1 °C - increments (or 41 to 64 °F in 1 °F increments) – for the optimum drinking temperature**
- + White LED temperature display with practical sensor touch controls
- + **Quiet operation**
- + Compact size for space-saving storage

## Battery wine cooler for 1 bottle

### WineCase Deluxe Inox

Item 616

- + **Your perfect companion for dinner and barbecues, at the table and on the patio**
- + High-quality, battery-powered wine cooler for one bottle (up to 90 mm Ø) – the perfect addition to your dinner, barbecue, etc.
- + Ideal for maintaining the temperature of a chilled bottle of wine, champagne, sparkling wine, etc.
- + **Thanks to 120 min\* of battery operation, you can perfectly showcase your favourite wine anywhere**
- + Stylish design with high-quality stainless steel housing
- + Can be operated with battery or power adapter (even without battery)
- + **Temperature can be set electronically from 5 - 18 °C in 1 °C - steps (or 41 - 64 °F in 1 °F-steps)**
- + White LED temperature display
- + Practical sensor touch operation
- + Quiet operation
- + Incl. removable battery (charging time approx. 2 hours) and battery adapter with power supply (additional spare battery available separately)

## Replacement battery

### WineCase Deluxe Inox battery

- + Replacement battery for wine cooler WineCase Deluxe Inox
- + Up to 120 min running time\*\*

# Wine Coolers for True Connoisseurs

A fine red or a refreshing white has become an essential part of indulgence for many. True wine lovers savour the subtle aromas and notes in their best bottles – making gentle, precise storage all the more important.

CASO Design wine coolers provide the ideal environment for every bottle, whether for the occasional gourmet or the dedicated collector. For added convenience, the smart models can even be controlled via app on your smartphone.

## For Every Collection – From 12 to 300 Bottles

Whether for private enjoyment or professional storage, CASO wine coolers offer capacities ranging from 12 to 300 bottles. Every bottle finds its perfect place. Thoughtful interiors with wooden shelves and presentation racks provide both clarity and stylish presentation. Perfect for beginners, collectors or restaurateurs who value quality and design.

## Compressor Technology – Quiet and Efficient

Modern compressor technology ensures constant, precise temperature control – independent of the ambient temperature. At the same time, the units operate quietly and with low vibrations, so the wine's ageing process is never disturbed. Ideal for living spaces, kitchens or professional gastronom.

## One or Two Temperature Zones – Perfectly Tempered

With one or two individually adjustable temperature zones, red and white wines can be stored under ideal conditions. Different varieties can thus be kept simultaneously at their perfect temperature – ready to serve at the touch of a button.

## Flexible Installation – Freestanding, Built-in or Under-Counter

Thanks to thoughtful design and front ventilation, many models can be used freestanding, under-counter or fully built-in. This allows CASO wine coolers to integrate seamlessly into any kitchen or living environment – both functional and aesthetic.

## Temperature Range from 5 - 20 °C

The precisely adjustable temperature range from 5 to 20 °C covers all requirements of wine storage – from long-term ageing to the perfect serving temperature. This allows every wine to develop its full bouquet – tailored to variety and preference.

## App-Enabled for Smart Control

With the CASO App, temperature and functions can be conveniently controlled via smartphone – even while on the go. This way, you always have your wine collection in view and can react quickly if needed. Comfort and control combined.

## Active Fans for Even Temperature

Integrated fans ensure consistent air circulation throughout the interior. This guarantees a uniform temperature on all levels – a crucial factor for professional, long-term wine storage.

## Insulating Safety Glass with UV Filter

Double- or triple-glazed insulating glass reliably protects wine from harmful UV rays and temperature fluctuations. The wine's quality is preserved, and the ageing process remains undisturbed – for lasting enjoyment.

## LED Temperature Display – Everything at a Glance

The modern LED display shows the current temperature precisely and clearly. This way, you always remain in full control of your wine collection – simple, clear and reliable.

## Lockable Door for Security

The lockable door protects your wine collection from unauthorised access – ideal for households with children, offices or use in gastronomy. Security meets stylish design.

## Stainless Steel or Black Stainless Steel – Stylish Design

Available in classic stainless steel or elegant black stainless steel, these appliances impress with premium workmanship and timeless design, blending seamlessly into any environment.

## Interior Lighting for Elegant Presentation

The integrated LED interior lighting showcases your wines in an atmospheric way – energy-saving, without generating heat, and perfect for highlighting special bottles in the dark or on open display.

## Removable Wooden Shelves with Presentation Rack

The elegant wooden shelves are removable and provide secure support for every bottle. Selected models also feature a presentation rack that highlights chosen wines with particular elegance – functional and decorative at the same time.

# Outdoor Cooling – More Than Just a Trend

Cooking outdoors in summer and having a dedicated outdoor kitchen have become beloved fair-weather rituals for many. Grilling, cooking and enjoying cool drinks are the perfect ingredients for a great day.

With CASO Design Outdoor Coolers, you've made the best choice for keeping drinks, snacks and sides perfectly chilled.

## Efficient Compressor Technology

The powerful compressor technology ensures reliable, constant cooling – even at higher ambient temperatures. It operates efficiently and quietly, making it ideal for outdoor kitchens as well as indoor use. Drinks and food always stay perfectly tempered.

## Left- or Right-Hand Door Hinge

Depending on your space, models are available with either left- or right-hand hinges. This allows seamless integration into any kitchen or bar setup. The lockable door also reliably protects the contents from unauthorised access.

## IPX4 Splash Protection for Safe Use

Thanks to IPX4 splash protection, the units are safeguarded against water splashes from all sides. This makes them ideal for use in covered outdoor kitchens and bars.

## Temperature Range from -1 to 10 °C / 2 to 10 °C

The precisely adjustable temperature range ensures optimal cooling for drinks, snacks or delicate foods. Depending on the model, temperatures from -1 to 10 °C or 2 to 10 °C are possible, guaranteeing maximum freshness.

## Spacious Interiors from 63 to 190 Litres

With selectable sizes of 63, 125 or 190 litres, these coolers provide ample space for bottles, cans and more – even for large barbecue parties with friends and family. The units also feature three or four height-adjustable shelves for flexible interior organisation, making it easy to store bottles and products of different sizes.

## Triple-glazed, Tinted UV Safety Glass

The door is made of triple-glazed tinted safety glass with UV filter. This protects the contents from harmful light exposure while giving the cooler an elegant appearance – ideal for presenting drinks.

## Stainless-Steel Interior – Hygienic and Durable

The high-quality stainless-steel interior is easy to clean, hygienic and robust. It resists moisture and is perfectly suited for continuous use in demanding environments.

## App-Enabled for Smart Control

With the CASO Control App, temperature and functions can be conveniently managed via smartphone. This way, you stay in full control at all times – even remotely. Perfect for modern, connected living.

## LED Interior Lighting

The integrated LED lighting ensures uniform illumination of the interior. Energy-efficient and without heat generation, it is ideal for presenting drinks – even in the dark.

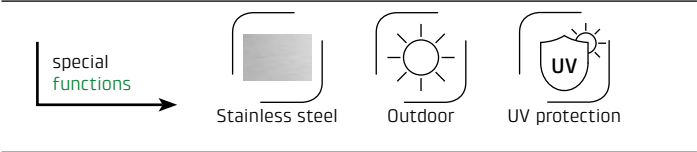

Outdoor cooling

**BBQ-Cooler S**

Item 700 // Item 701

- + **Design barbecue cooler with high-quality stainless steel housing and compressor technology**
- + Models:
  - 700 / BBQ-Cooler S-R: Door hinge on the right
  - 701 / BBQ-Cooler S-L: Door hinge on the left
- + **Ideal for interior and exterior use (splash water protection according to IPX-4, e.g. for covered terraces)**
- + 6 adjustable temperature increments (approx. -1 to 10 °C)
- + A lot of space for beverages and foods due to ca. 63 l interior volume
- + 3 practical iron chrome shelves with height adjustability thanks to easy click system
- + Also suitable as a built-in device, e.g. for kitchens, outdoor kitchens and basement party rooms
- + **3-layer, tinted UV safety glass for optimal protection and reliable cooling of the drinks and foods**
- + Always have an overview of the drinks thanks to glass pane without opening the door
- + Door with self-closing mechanism reliable cooling
- + **Interior made of hygienic stainless steel for an easy cleaning**
- + Connectible LED interior illumination

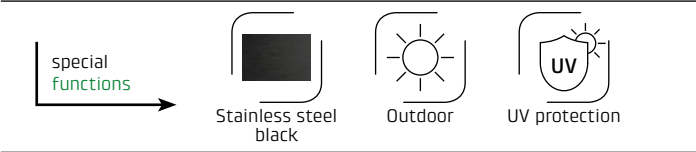

Outdoor cooling

**BBQ-Cooler Black S**

Item 702 // Item 703

- + **Like BBQ-Cooler S, only with high-quality, black stainless steel housing**
- + Models:
  - 702 / BBQ-Cooler Black S-R: Door hinge on the right
  - 703 / BBQ-Cooler Black S-L: Door hinge on the left

Outdoor cooling

**Trolley for BBQ coolers**

- + Compatible with item 700, 701, 702, 703
- + Stainless steel trolley with removable side shelves
- + **Ideal for covered terraces etc. thanks to splash water protection**
- + Drawer with self-closing mechanism
- + Side parts up to 25 kg loadable
- + **Easily washable + very hygienic**
- + With four stable swivel castors for easy transport
- + Front castors with parking brake
- + Incl. triple plug

Art.Nr. 782

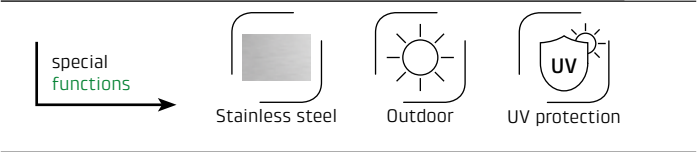

Outdoor cooling

**BBQ-Cooler M-R**

Item 696

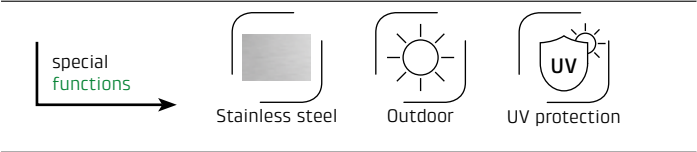

- + **Design barbecue cooler with high-quality stainless steel housing and compressor technology**
- + **Ideal for interior and exterior use (splash water protection according to IPX-4, e.g. for covered terraces)**
- + 6 adjustable temperature increments (ca. -1 – 10 °C)
- + A lot of space for beverages and foods due to ca. 125 l interior volume
- + 4 practical shelves with height adjustability thanks to easy click system
- + Also suitable as a built-in device, e. g. for kitchens, outdoor kitchens and basement party rooms
- + **3-layer, tinted UV safety glass for optimal protection and reliable cooling of the drinks and foods**
- + Always have an overview of the drinks thanks to glass pane without opening the door
- + Door with self-closing mechanism reliable cooling
- + **Interior made of hygienic stainless steel for an easy cleaning**
- + Connectible LED interior illumination
- + Suitable for professional gastronomy and for private use

Outdoor cooling

**BBQ-Cooler L-R**

Item 697

- + **Like the BBQ Cooler M-R, but with a generous 190 l interior volume**

Outdoor cooling with smart control

BBQ Deluxe-L Smart

Item 708

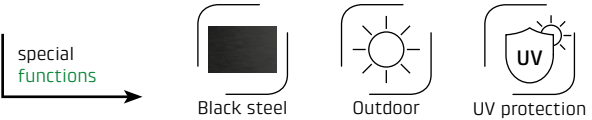

- + Design Barbecue Cooler with left hinge
- + **Design barbecue cooler with digital touch display and compressor technology**
- + **High-quality stainless steel housing – Ideal for interior and exterior use (splash water protection according to IPX-4, e.g. for covered terraces)**
- + **Can be controlled from anywhere via the integrated Wi-Fi module with the CASO Control App**
- + 7 adjustable target temperature levels (2 - 10 °C)
- + A lot of space for beverages and foods due to ca. 63 l interior volume
- + 3 practical iron chrome shelves with height adjustability thanks to easy click system
- + Also suitable as a built-in device, e.g. for kitchens, outdoor kitchens and basement party rooms
- + **High-quality vacuum glass door for maximum energy efficiency and UV protection**
- + **3-layer, tinted UV safety glass for optimal protection and reliable cooling of the drinks and foods**
- + Always have an overview of the drinks thanks to glass pane without opening the door
- + Lockable door with self-closing mechanism reliable cooling
- + **Interior made of hygienic stainless steel for an easy cleaning**
- + With switchable LED interior lighting in 4 light intensity levels

Outdoor cooling with smart control

BBQ Deluxe-R Black Smart

Item 709

- Like BBQ Deluxe L Smart, with the following features:**
- + Design Barbecue Cooler with left right
  - + **High-quality steel housing with with matt black, weather-resistant powder coating**
  - + **Ideal for interior and exterior use (splash water protection according to IPX-4, e.g. for covered terraces)**

Temperature control easily via CASO Control App. Page 165

Beer dispenser

BeerMaster

Item 582

- + High-quality beer dispenser for fresh, cool draught beer
- + **Cooling system preserves beer for up to 10 days**
- + Optimum enjoyment thanks to 9 selectable temperatures (from 4 - 12 °C)
- + **Infinitely adjustable pressure for perfect beer enjoyment – as if was pulled in a pub**
- + **Suitable for all commercially available 5 litre beer kegs**, such as Krombacher, Warsteiner, Veltins, Bitburger, Heineken, etc.
- + The perfect addition to your party
- + Hygienic, easy cleaning
- + Scope of delivery:
  - Beer hose, Heineken adapter, 3 CO2 pressure cartridges, Cleaning pump etc.

**Can be combined with:**  
Steel trolley for CASO Barbecue Cooler (item 682) + attachment for Steel trolley (item 687)

Cooler + trolley + beer dispenser

TapBeer & Cool

Item 583

- Barbecue cooler:**
- + **Splash water protection (according to IPX-4)**
  - + Door hinge on the right
  - + **Temperature manual adjustable from 0 - 10 °C**
  - + Compressor technology
  - + With drip tray for the beer dispenser
  - + Connectible white LED interior illumination
  - + Storage volume of about 63 liters, removable shelves
  - + 3-coat insulating safety glass with UV filter for optimal light protection
- Stainless steel trolley:**
- + Stainless steel trolley with removable side shelves
  - + **Splash water protection – Ideal for covered terraces**
  - + Drawer with self-closing mechanism
  - + **Side parts up to 25 kg loadable**
  - + **Easily washable and very hygienic**
  - + With four stable swivel castors for easy transport (front with parking brake)

**Beer dispenser:**

- + See "BeerMaster" on the left

## Lounge table with soundbar + cooling compartments

### Sound & Cool

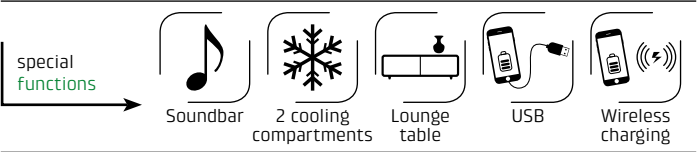

Item 792

Item 793

Item 794

- + **Lounge table with cooling compartments, integrated music speakers + charging option for smartphones etc.**
- + Reliable compressor cooling
- + **Two cooling compartments (total 135 l) for snacks and drinks with individually adjustable temperature:**
  - Left cooling zone: 3 – 8 °C / 70 l volume
  - Right cooling zone: 6 – 12 °C / 65 l volume
- + The practical ECO mode ensures the temperature setting with the lowest power consumption (depending on the ambient temperature)
- + **Convenient playback of music etc. via Bluetooth 5.0**
- + Different sound programmes: auto, rock, film, pop, jazz
- + With RGB LED light strip for atmospheric ambience: Individual lighting depending on the music setting
- + **Practical charging options:**
  - USB ports: 2x USB (5 V) and 1x USB-C (5 V)
  - Wireless charging for compatible phones (up to 15 W)
- + LED display with touch control panel
- + High-quality tempered glass – max. load of up to 200 kg
- + Acoustic signal if the refrigerator compartment is open for too long
- +
  - 792: Black body with black glass top
  - 793: White body with black glass top
  - 794: Wood effect body with black glass top

# The Art of Dry Aging

Perhaps an entrecôte of Galician beef – a true indulgence for discerning steak lovers. Thanks to its rich marbling, this cut is renowned for its tenderness and depth of flavour, reaching perfection inside a CASO Design Dry Aged maturing cabinet. The unique process of dry aging transforms steak into something extraordinary: wonderfully tender with a full-bodied, aromatic taste. In the United States, beef aged on the bone has long held cult status. This traditional method – maturing meat on the bone over time under precisely controlled temperature and humidity – is the oldest and most refined form of meat ageing.

## Efficient Compressor Technology for Constant Cooling

The powerful compressor technology ensures precise, constant temperature control, independent of external conditions. This is essential for controlled meat maturation, as fluctuations in temperature can affect quality. Operating efficiently and with minimal vibration, the technology is ideal for continuous use.

## For Storing, Presenting and Maturing Meat

CASO Design maturing cabinets are specially developed for professional meat maturation. They provide the perfect conditions for dry-aged beef and other delicacies: constant temperature, adjustable humidity, UV protection and active air circulation. At the same time, they allow for stylish presentation – perfect for butchers, restaurants or ambitious home chefs.

## Flexible Installation – Freestanding, Built-in or Integrated

Depending on the model, CASO Design Dry Aged Masters can be placed freestanding or integrated seamlessly into kitchen or furniture concepts. With their built-in and under-counter design featuring front ventilation, they adapt effortlessly to any environment – from a private kitchen to a gourmet deli or an exclusive restaurant setting.

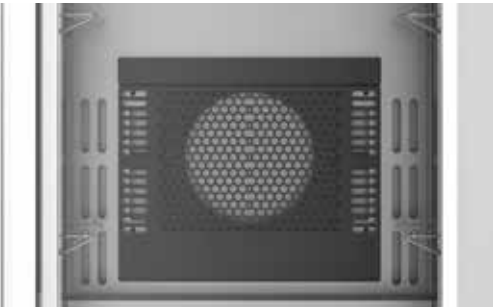

## Generous Space for Perfect Maturation – 63, 125 or 380 Litres

With capacities of 63, 125 or even 380 litres, CASO Design ageing cabinets offer ample room for professional meat maturation. Their carefully designed interiors – complete with hanging racks, shelves and meat hooks – provide maximum flexibility, whether for larger cuts, varied quantities or different products maturing simultaneously.

## Precise Cooling: Temperature Range from 2 – 14 °C

The precisely adjustable temperature range of 2 to 14 °C creates the ideal conditions for controlled maturation of meat and charcuterie. Constant cooling supports microbiological processes without compromising quality. Combined with adjustable humidity and active air circulation, it delivers a professional ageing climate – perfect for outstanding dry-aged beef.

## Active Fan for Even Temperature Distribution

An integrated fan ensures constant air circulation inside the cabinet. This maintains an even temperature throughout – a crucial factor for safe, controlled maturation over several days or weeks.

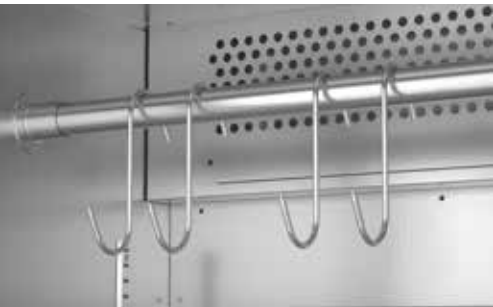

## Intuitive Touch Control

The modern touch control panel allows for simple, precise adjustment of temperature, humidity and lighting. All settings are clearly displayed and easy to customise.

## Triple-Glazed UV-Protected Glass

The door is made of triple-glazed safety glass with UV protection. This reliably shields the contents from harmful light exposure and temperature fluctuations.

## Comprehensive Accessories Included

Every CASO Design meat ageing cabinet comes fully equipped with practical accessories: an activated carbon filter for odour neutralisation, hanging rack, shelves, meat hooks and an H2O container for humidity regulation. Everything you need for professional results – whether at home or in gastronomy.

# Dry aging cabinet

## DryAged Master 63 / 125 / 380 Pro

special functions

Stainless steel front

Sensor touch

- + High quality maturing cabinet with compressor technology
- + **For storing, presenting and maturing high quality meat**
- + DryAged Master 125 can be built under and converted, DryAged Master 380 Pro convertible
- + Usable volume:
  - 689: 63 l
  - 690: 125 l
  - 691: 380 l
- + **Temperature electronically adjustable from 2 - 14 °C (in 1 °C steps)**
- + Indoor humidity adjustable from 50 - 85 %
- + Active fans for a very even temperature
- + **Intuitive operation using the touch control panel**
- + 3-layer UV glass
- + Lockable with an integrated lock
- + Switchable interior lighting
- + **Switchable, antibacterial UV light**
- + With built-in activated carbon filter
- + Incl. racks and hangers with meat hooks made of stainless steel and a H2O reservoir (2 reservoirs with DryAged Master 380 Pro)

The hook supplied with the appliance ensures that every surface of the meat matures perfectly.

The dark colouring is a classic characteristic and is removed before using the meat.

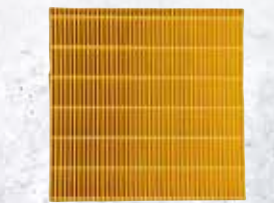

Perfectly marbled meat for an intensive taste experience.

### Accessories

+ Activated carbon filter, Item 692

+ H2O storeage (4 pcs), Item 693

# Ice Makers – Ice On Demand

With CASO Design ice makers, you'll never need to pre-freeze ice in trays or bags again. Thanks to advanced compressor technology, the machines start producing ice cubes within minutes – so spontaneous refreshment or an impromptu cocktail evening is never out of reach.

## Powerful Performance, Instantly Ready

The high-performance compressor ensures fast, efficient ice production without pre-freezing. Unlike thermoelectric devices, the compressor works reliably and continuously – perfect for barbecue nights with friends.

## Two Ice Cube Sizes

Choose between two cube sizes for maximum flexibility. Smaller cubes chill drinks quickly, while larger ones melt more slowly – ideal for elegant cocktail presentations.

## Quick Results

Thanks to rapid cooling, the first ice cubes are ready within minutes. With a production capacity of up to 500 g per hour, the machine is perfect for unexpected guests.

## Large Water Tank

Generous water tanks – depending on the model, 1 or 2.2 litres – ensure continuous operation. A convenient indicator shows when a refill is needed, keeping the ice flowing without interruption.

## Mobile and Flexible

A practical carry handle makes transport effortless – from the kitchen counter to the terrace or from the office to the break room. Fresh ice is always available wherever you need it.

## Serving Made Simple

Each CASO Design ice cube maker comes with a premium ice scoop for hygienic, convenient serving. Easy to portion, easy to enjoy.

## Easy Ice Removal

The removable ice basket offers both capacity and convenience. Designed to hold a generous amount, it lifts out effortlessly for quick serving or for transferring ice into other containers – making handling and cleaning as easy as possible.

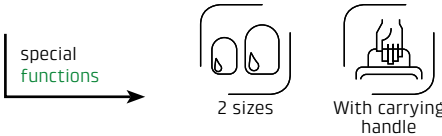

Ice cube maker

IceChef Compact

Item 3401

- + **Compact ice cube maker with powerful and and quiet (43 dB) compressor technology**
- + Choice of two ice cube sizes
- + **Fresh and fast ice cubes - ready in approx. 6 - 13 minutes**
- + Produces 500 g / 1 h or 12 kg / 24 h
- + Water tank with 1 l capacity
- + Viewing window for a quick overview of the produced ice cubes
- + Display for empty water tank and full ice cube tray
- + **With practical and hygienic self-cleaning function**
- + Modern matt black design
- + With carrying handle for easy transportation
- + Removable ice cube tray
- + Incl. handy ice scoop

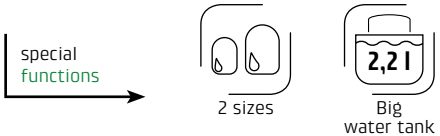

Ice cube maker

IceMaster Pro

Item 3301

- + Produces approx. 500 g ice cubes / h
- + Quick ice cube production inn 6 - 13 min
- + Two ice cube sizes, small & big
- + Good insulation
- + Stainless steel look
- + **Compressor technology**
- + Lid with window
- + Water level indicator
- + Automatic switch-off
- + **Large water tank with a volume of 2.2 l**
- + Incl. handy ice scoop

# Article overview

## Ice cream & yoghurt maker

Product name		IceCreamer
Item	3298	
EAN	40 38437 03298 7	
Housing / colour	Stainless steel	
Cooling technology	Compressor	
Capacity	Up to 2 l	
Operation	Manually	
Display	LED	
Programmes	4	
Power	180 watt	
Voltage	220-240V AC, 50Hz	
Measures (WxHxD)	430 x 280 x 285 mm	
Weight	11,8 kg	
Certification	CE, GS	
Packing unit	1
